QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2021

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission file Number: 000-32891

**1<sup>ST</sup> CONSTITUTION BANCORP**

(Exact Name of Registrant as Specified in Its Charter)

New Jersey

(State of Other Jurisdiction  
of Incorporation or Organization)

22-3665653

(I.R.S. Employer Identification No.)

2650 Route 130

P.O. Box 634

Cranbury

New Jersey

08512

(Address of Principal Executive Offices)

(Zip Code)

(Registrant's Telephone Number, Including Area Code)

(609) 655-4500

(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common stock, no par value	FCCY	NASDAQ Global Market

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input checked="" type="checkbox"/>	Smaller reporting company	<input checked="" type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicated by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

As of August 4, 2021, there were 10,285,016 shares of the registrant's common stock, no par value, outstanding.

**1<sup>ST</sup> Constitution Bancorp**  
**Notes to Consolidated Financial Statements**  
**June 30, 2021**  
**(Unaudited)**

**(1) Summary of Significant Accounting Policies**

The accompanying unaudited consolidated financial statements include 1<sup>ST</sup> Constitution Bancorp (the “Company”), its wholly-owned subsidiary, 1<sup>ST</sup> Constitution Bank (the “Bank”), and the Bank’s wholly-owned subsidiaries, 1<sup>ST</sup> Constitution Investment Company of New Jersey, Inc., FCB Assets Holdings, Inc and 1st Constitution Real Estate Investment Corporation (the “REIT”), which is indirectly owned by the Bank. To qualify as a real estate investment trust for tax purposes, the REIT must have 100 or more shareholders. As a result, less than 20 percent of the REIT’s outstanding non-voting preferred stock has been issued to individual shareholders, consisting of officers, directors and employees of the Bank and their adult family members. 1<sup>ST</sup> Constitution Investment Company of New Jersey, Inc. owns the remaining issued and outstanding preferred stock and common stock of the REIT. 1<sup>ST</sup> Constitution Capital Trust II, a subsidiary of the Company, is not included in the Company’s consolidated financial statements, as it is a variable interest entity and the Company is not the primary beneficiary. All significant intercompany accounts and transactions have been eliminated in consolidation. The accounting and reporting policies of the Company and its subsidiaries conform to accounting principles generally accepted in the United States of America (“U.S. GAAP”) and to the rules and regulations of the Securities and Exchange Commission (the “SEC”), including the instructions to Form 10-Q and Article 10 of Regulation S-X. Certain information and footnote disclosures normally included in financial statements have been condensed or omitted pursuant to such rules and regulations. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2020, filed with the SEC on March 15, 2021.

In the opinion of the Company, all adjustments (consisting only of normal recurring accruals) that are necessary for a fair presentation of the operating results for the interim periods have been included. The results of operations for periods of less than a year are not necessarily indicative of results for the full year.

The Company has evaluated events and transactions occurring subsequent to the balance sheet date of June 30, 2021 for items that should potentially be recognized or disclosed in these financial statements. The evaluation was conducted through the date these financial statements were issued.

*Novel Coronavirus (“COVID-19”) Impact:* The sudden emergence of the COVID-19 global pandemic in the first quarter of 2020, and the responses thereto (including business and school closures, restrictions on travel and social distancing protocols), have caused, and are continuing to cause, widespread uncertainty, social and economic disruption, highly volatile financial markets and higher levels of unemployment. As a result, many businesses located in the Bank’s primary market areas of northern and central New Jersey, communities along the New Jersey shore, and the New York City metropolitan area, and their employees, have been adversely impacted.

The ultimate impact of the COVID-19 pandemic on the businesses and the people in the communities that the Bank serves, and on the Company’s operations and financial performance, will depend on future developments related to the duration, extent and severity of the pandemic and measures taken by governmental and private parties in response thereto, including but not limited to the enactment of further legislation or the adoption of policies designed to deliver monetary aid and other relief to borrowers. In addition, to the extent that the Bank’s customers are not able to fulfill their contractual obligations, the Company’s business operations, asset valuations, financial condition, cash flows and results of operations could be materially adversely impacted. Material adverse impacts may also include all or a combination of valuation impairments on our intangible assets, investments, loans, deferred tax assets, or other real estate owned (“OREO”). Similarly, the Company’s operations rely on third-party vendors to process, record and monitor transactions. If any of these vendors are unable to provide these services, our ability to serve customers could be disrupted. The pandemic could also negatively impact customers’ ability to conduct banking and other financial transactions. The Company’s operations could also be adversely impacted if key personnel or a significant number of employees are unable to work due to illness or restrictions.

On March 27, 2020, the President of the United States signed into law the Coronavirus Aid, Relief and Economic Security (“CARES”) Act to provide relief for individuals and businesses that have been negatively impacted by the COVID-19 pandemic. Among the provisions, the CARES Act includes a provision for the Company to opt out of applying the “troubled-debt restructuring” accounting guidance in Accounting Standards Codification (“ASC”) Topic 310-40 for certain loan modifications. Loan modifications made between March 1, 2020 and the earlier of i) December 30, 2020 or ii) 60 days after the President declares a termination of the COVID-19 national emergency are eligible for this relief if the related loans were not more than 30 days past due as of December 31, 2019. The Bank adopted this provision as of March 31, 2020.

The Economic Aid to Hard Hit Small Business, Not for Profits and Venues Act (“Economic Aid Act”) was enacted in December 2020 in further response to the COVID-19 pandemic. Among other things, the Economic Aid Act provides relief to borrowers in the form of access to additional credit through the Small Business Administration’s (“SBA”) Paycheck Protection Program (“PPP”) as originally constituted under the CARES Act. In addition, the Economic Aid Act extended the relief from ASC Topic 310-40, such that the Company is able to opt out of applying the “troubled-debt restructuring” accounting guidance for loan modifications made between January 1, 2021 and the earlier of (i) December 30, 2021 or (ii) 60 days after the President declares a termination of the COVID-19 national emergency; provided, that, the modified loans were not more than 30 days past due as of December 31, 2019. The Bank adopted this provision as of December 31, 2020.

## (2) Earnings Per Common Share

Basic earnings per common share is calculated by dividing net income by the weighted average number of common shares outstanding during each period. Diluted earnings per common share is calculated by dividing net income by the weighted average number of common shares outstanding, as adjusted for the assumed exercise of dilutive common stock options using the treasury stock method.

Awards of restricted shares are included in outstanding shares when granted. Unvested restricted shares are entitled to non-forfeitable dividends and participate in undistributed earnings with common shares. Awards of this nature are considered participating securities and basic and diluted earnings per share are computed under the two-class method.

Dilutive securities in the tables below exclude common stock options with exercise prices that exceed the average market price of the Company’s common stock during the periods presented. Inclusion of these common stock options would be anti-dilutive to the diluted earnings per common share calculation. For the three months ended June 30, 2021 and 2020, 23,300 and 54,930 options, respectively, were anti-dilutive and were not included in the computation of diluted earnings per share. For the six months ended June 30, 2021 and 2020, 40,450 and 41,430 options, respectively, were anti-dilutive and were not included in the computation of diluted earnings per share.

The following table illustrates the calculation of both basic and diluted earnings per share for the three and six months ended June 30, 2021 and 2020:

(Dollars in thousands, except per share data)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Net income	\$ 5,152	\$ 3,690	\$ 10,081	\$ 7,111
Basic weighted average shares outstanding	10,272,906	10,209,295	10,267,343	10,205,065
Plus: common stock equivalents	52,429	38,861	48,437	51,416
Diluted weighted average shares outstanding	10,325,335	10,248,156	10,315,780	10,256,481
Earnings per share:				
Basic	\$ 0.50	\$ 0.36	\$ 0.98	\$ 0.70
Diluted	\$ 0.50	\$ 0.36	\$ 0.98	\$ 0.69

### (3) Investment Securities

A summary of amortized cost and fair value of investment securities available for sale follows:

	June 30, 2021			
(Dollars in thousands)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
U.S. Treasury securities and obligations of U.S. Government sponsored entities ("GSE")	\$ 2,747	\$ 22	\$ —	\$ 2,769
Residential collateralized mortgage obligations - GSE	36,800	339	(68)	37,071
Residential mortgage backed securities - GSE	26,738	483	(95)	27,126
Obligations of state and political subdivisions	24,096	911	—	25,007

At June 30, 2021 and December 31, 2020, \$65.0 million and \$81.7 million of investment securities, respectively, were pledged to secure public funds and collateralized borrowings from the Federal Home Loan Bank of New York (“FHLB”) and for other purposes required or permitted by law.

Restricted stock was included in other assets at June 30, 2021 and December 31, 2020 and totaled \$1.2 million and \$1.7 million, respectively. Restricted stock consisted of \$1.0 million of FHLB stock and \$160,000 of Atlantic Community Bankers Bank stock at June 30, 2021 and \$1.5 million of FHLB and \$160,000 of Atlantic Community Bankers Bank stock at December 31, 2020.

The following table sets forth certain information regarding the amortized cost, carrying value, fair value, weighted average yields and contractual maturities of the Company's investment portfolio as of June 30, 2021. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

(Dollars in thousands)	June 30, 2021		
	Amortized Cost	Fair Value	Yield
<b>Available for sale</b>			
Due in one year or less	\$ 4,317	\$ 4,409	3.16 %
Due after one year through five years	28,838	29,660	2.34 %
Due after five years through ten years	25,996	26,481	1.75 %
Due after ten years	69,747	70,336	1.74 %
Total	<u>\$ 128,898</u>	<u>\$ 130,886</u>	<u>1.92 %</u>
(Dollars in thousands)	Carrying Value	Fair Value	Yield
	<b>Held to maturity</b>		
Due in one year or less	\$ 23,898	\$ 23,922	1.05 %
Due after one year through five years	4,491	4,643	3.58 %

*U.S. Treasury securities and obligations of U.S. government-sponsored entities:* The unrealized losses on investments in these securities were caused by increases in market interest rates. The Company does not intend to sell these investments and it is not more likely than not that the Company will be required to sell these investments before a market price recovery or maturity. Therefore, these investments are not considered other-than-temporarily impaired.

*Residential collateralized mortgage obligations and residential mortgage backed securities:* The unrealized losses on investments in residential collateralized mortgage obligations and residential mortgage backed securities were caused by increases in market interest rates. The contractual cash flows of these securities are guaranteed by the issuers, which are primarily government or government sponsored agencies. It is expected that the securities would not be settled at a price less than the amortized cost of the investment. The decline in fair value is attributable to changes in interest rates and not credit quality. The Company does not intend to sell these investments and it is not more likely than not that the Company will be required to sell these investments before a market price recovery or maturity. Therefore, these investments are not considered other-than-temporarily impaired.

*Obligations of state and political subdivisions:* The unrealized losses on investments in these securities were caused by increases in market interest rates. It is expected that the securities would not be settled at a price less than the amortized cost of the investment. None of the issuers have defaulted on interest payments. These investments are not considered to be other than temporarily impaired because the decline in fair value is attributable to changes in interest rates and not credit quality. The Company does not intend to sell these investments and it is not more likely than not that the Company will be required to sell these investments before a market price recovery or maturity. Therefore, these investments are not considered other-than-temporarily impaired.

*Corporate debt securities.* The unrealized losses on investments in corporate debt securities were caused by an increase in market interest rates, which includes the yield required by market participants for the issuer's credit risk. None of the corporate issuers have defaulted on interest payments. The Company does not intend to sell these investments and it is not more likely than not that the Company will be required to sell these investments before a market price recovery or maturity. Therefore, these investments are not considered other-than-temporarily impaired.

*Other debt securities.* The unrealized losses on investments in other debt securities were caused by an increase in market interest rates, which includes the yield required by market participants for the issuer's credit risk. None of the issuers have defaulted on interest payments. The decline in fair value is attributable to changes in market interest rates. The Company does not intend to sell these investments and it is not more likely than not that the Company will be required to sell these investments before a market price recovery or maturity. Therefore, these investments are not considered other-than-temporarily impaired.

*Trust preferred debt securities – pooled:* This trust preferred debt security was issued by a two issuer pool (Preferred Term Securities XXV, Ltd. co-issued by Keefe, Bruyette and Woods, Inc. and First Tennessee (“PRETSL XXV”)), consisting primarily of financial institution holding companies. During 2009, the Company recognized an other-than-temporary impairment charge of \$865,000, of which \$364,000 was determined to be a credit loss and charged to operations and \$501,000 was recognized in the other

comprehensive income (loss) component of shareholders' equity. The primary factor used to determine the credit portion of the impairment loss to be recognized in the income statement for this security was the discounted present value of projected cash flow, where that present value of cash flow was less than the amortized cost basis of the security. The present value of cash flow was developed using a model that considered performing collateral ratios, the level of subordination to senior tranches of the security and credit ratings of and projected credit defaults in the underlying collateral. Due to recovery of the cash flows underlying the security, the Company began to accrete the \$501,000 of impairment charge in the other comprehensive income component in 2019. Total accretion of \$12,000 was recognized in the first six months of 2021 as an increase in the carrying amount of the security. On a quarterly basis, management evaluates this security to determine if any additional other-than-temporary impairment is required. As of June 30, 2021, management concluded that no additional other-than-temporary impairment had occurred.

#### (4) Allowance for Loan Losses and Credit Quality

The Company's primary lending emphasis is the origination of commercial real estate loans, mortgage warehouse lines of credit and commercial business loans. Based on the composition of the loan portfolio, the inherent primary risks are deteriorating credit quality, a decline in the economy and a decline in New Jersey and New York City metropolitan area real estate market values. Any one, or a combination, of these events may adversely affect the loan portfolio and may result in increased delinquencies, loan losses and increased future provision levels.

The following table provides an aging of the loan portfolio by loan class at June 30, 2021:

(Dollars in thousands)	30-59 Days	60-89 Days	Greater than 90 Days	Total Past Due	Current	Total Loans Receivable	Recorded Investment > 90 Days Accruing	Non-Accrual Loans
Commercial real estate	\$ —	\$ —	\$ 3,113	\$ 3,113	\$ 612,519	\$ 615,632	\$ —	\$ 3,113

Deferred loan fees, net						(1,254)		
<b>Total loans</b>						<b>\$ 1,433,706</b>		

As provided by ("ASC") 310-30, the excess of cash flows expected at acquisition over the initial investment in the loan is recognized as interest income over the life of the loan. At June 30, 2021 and December 31, 2020, there were \$542,000 and \$2.4

million of purchased credit impaired loans, respectively, that were not classified as non-performing loans due to the accretion of income.

The Company's internal credit risk grades are based on the definitions currently utilized by the banking regulatory agencies. The grades assigned and their definitions are as follows:

1. Excellent - Loans that are based upon cash collateral held at the Company and adequately margined. Loans that are based upon "blue chip" stocks listed on the major stock exchanges and adequately margined.

2. Above Average - Loans to companies whose balance sheets show excellent liquidity and long-term debt is on well-spread schedules of repayment easily covered by cash flow. Such companies have been consistently profitable and have diversification in their product lines or sources of revenue. The continuation of profitable operations for the foreseeable future is likely. Management is comprised of a mix of ages, experience and backgrounds and management succession is in place. Sources of raw materials and, for service companies, the sources of revenue are abundant. Future needs have been planned for. Character and management ability of individuals or company principals are excellent. Loans to individuals are supported by their high net worth and liquid assets.

3. Good - Loans to companies whose balance sheets show good liquidity and cash flow adequate to meet maturities of long-term debt with a comfortable margin. Such companies have established profitable records over a number of years, and there has been growth in net worth. Operating ratios are in line with those of the industry, and expenses are in proper relationship to the volume of business done and the profits achieved. Management is well-balanced and competent in their responsibilities. Economic environment is favorable; however, competition is strong. The prospects for growth are good. Loans in this category do not meet the collateral requirements of loans graded excellent and above average. Loans to individuals are supported by good net worth but whose supporting assets are illiquid.

3w. Watch - Included in this category are loans evidencing problems identified by Company management that require closer supervision, but do not require a "special mention" rating. This category also covers situations where the Company does not have adequate current information upon which credit quality can be determined. The account officer has the obligation to correct these deficiencies within 30 days from the time of notification.

4. Special Mention - A "special mention" loan has potential weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or the Company's credit position at some future date. Special mention loans are not adversely classified and do not expose the Company to sufficient risk to warrant adverse classification.

5. Substandard - A "substandard" loan is inadequately protected by the current net worth and paying capacity of the obligor or by the collateral pledged, if any. Loans so classified must have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the Company will sustain some loss if the deficiencies are not corrected.

6. Doubtful - A loan classified as "doubtful" has all the weaknesses inherent of a loan classified as substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently known facts, conditions and values, highly questionable and improbable.

7. Loss - A loan classified as "loss" is considered uncollectible and of such little value that its continuance on the books is not warranted. This classification does not mean that the loan has absolutely no recovery or salvage value. Rather, this classification indicates that it is not practical or desirable to defer writing off this loan even though partial recovery may occur in the future.

The following table provides a breakdown of the loan portfolio by credit quality indicator at June 30, 2021:

(Dollars in thousands)

Credit Exposure by Internally Assigned Grade	Construction	Commercial Business	Commercial Real Estate	Mortgage Warehouse Lines	Residential Real Estate

Non-performing	273	—
Total	<u>\$ 21,269</u>	<u>\$ 113</u>

### Impaired Loans

Loans are considered to be impaired when, based on current information and events, it is determined that the Company will not be able to collect all amounts due according to the loan agreement, including scheduled interest payments. When a loan is placed on non-accrual status, it is also considered to be impaired. Loans are placed on non-accrual status when: (1) the full collection of interest or principal becomes uncertain or (2) the loans are contractually past due 90 days or more as to interest or principal payments unless the loans are both well secured and in the process of collection.

The following tables summarize the distribution of the allowance for loan losses and loans receivable by loan class and impairment method at June 30, 2021 and December 31, 2020:

June 30, 2021									
(Dollars in thousands)	Construction	Commercial Business	Commercial Real Estate	Mortgage Warehouse Lines	Residential Real Estate	Loans to Individuals	Other Loans	Unallocated	Total

At June 30, 2021 and December 31, 2020, there were \$36.0 million and \$58.8 million, respectively, of Small Business Administration (“SBA”) Paycheck Protection Program (“PPP”) loans which are included in commercial business loans and are 100% guaranteed by the SBA. Accordingly, no allowance was provided for such loans.

The activity in the allowance for loan loss by loan class for the three and six months ended June 30, 2021 and 2020 was as follows:

When a loan is identified as impaired, the measurement of impairment is based on the present value of expected future cash flows, discounted at the loan’s effective interest rate, except when the sole remaining source of repayment for the loan is the liquidation of the collateral. In such cases, the current fair value of the collateral less selling costs is used. If the value of the impaired loan is less than the recorded investment in the loan, the impairment is recognized through an allowance estimate or a charge to the allowance.

## Purchased Credit-Impaired Loans

Purchased credit-impaired (“PCI”) loans are loans acquired at a discount due in part to the deteriorated credit quality. On November 8, 2019, as part of the merger of Shore Community Bank with and into the Bank, the Company acquired PCI loans with loan balances totaling \$6.3 million and fair values totaling \$4.6 million. The following table presents additional information regarding PCI loans at June 30, 2021 and December 31, 2020:

(Dollars in thousands)	June 30, 2021	December 31, 2020
Outstanding balance	\$ 4,284	\$ 5,221
Carrying amount	\$ 3,121	\$ 4,041

Changes in accretable discount for purchased credit-impaired loans for the three and six months ended June 30, 2021 and June 30, 2020 were as follows:

(Dollars in thousands)	Three months ended June 30,		Six months ended June 30,	
	2021	2020	2021	2020
Balance at beginning of period	\$ 388	\$ 522	\$ 232	\$ 657
Acquisition of impaired loans	—	—	—	—
Transfer from non-accretable discount			229	—
Accretion of discount	(87)	(96)	(160)	(231)
Balance at end of period	\$ 301	\$ 426	\$ 301	\$ 426

## Consumer Mortgage Loans Secured by Residential Real Estate in Process of Foreclosure

The following table summarizes the recorded investment in consumer mortgage loans secured by residential real estate in the process of foreclosure (Dollars in thousands):

June 30, 2021		December 31, 2020	
Number of loans	Recorded Investment	Number of loans	Recorded Investment
3	\$ 471	1	\$ 311

## Troubled Debt Restructurings

In the normal course of business, the Bank may consider modifying loan terms for various reasons. These reasons may include as a retention strategy to compete in the current interest rate environment or to re-amortize or extend a loan term to better match the loan’s repayment stream with the borrower’s cash flow. A modified loan would be considered a troubled debt restructuring (“TDR”) if the Bank grants a concession to a borrower and has determined that the borrower is troubled (i.e., experiencing financial difficulties).

If the Bank restructures a loan to a troubled borrower, the loan terms (i.e., interest rate, payment, amortization period and maturity date) may be modified in various ways to enable the borrower to cover the modified debt service payments based on current financial statements and cash flow adequacy. If a borrower’s hardship is thought to be temporary, then modified terms may be offered for only that time period. Where possible, the Bank attempts to obtain additional collateral and/or secondary repayment sources at the time of the restructuring in order to put the Bank in the best possible position if the borrower is not able to meet the modified terms. The Bank will not offer modified terms if it believes that modifying the loan terms will only delay an inevitable permanent default. In evaluating whether a restructuring constitutes a TDR, applicable guidance requires that a creditor must separately conclude that the restructuring constitutes a concession and the borrower is experiencing financial difficulties.

There were no loans modified as a TDR during the six months ended June 30, 2021 and 2020. There were no TDRs that subsequently defaulted within 12 months of restructuring during the six months ended June 30, 2021 and 2020.

Pursuant to the CARES Act, loan modifications made between March 1, 2020 and the earlier of i) December 30, 2020 or ii) 60 days after the President declares a termination of the COVID-19 national emergency are not classified as TDRs if the related loans were not more than 30 days past due as of December 31, 2019. The Economic Aid Act, which was enacted in December 2020 in further response to the COVID-19 pandemic, provides relief to borrowers in the form of access to additional credit through the SBA’s PPP

as originally constituted under the CARES Act. Pursuant to the Economic Aid Act, the Company may opt out of applying the “troubled-debt restructuring” accounting guidance for loan modifications made between January 1, 2021 and the earlier of (i) December 30, 2021 or (ii) 60 days after the President declares a termination of the COVID-19 national emergency, provided that the modified loans were not more than 30 days past due as of December 31, 2019.

As of June 30, 2021, all commercial business, commercial real estate and consumer loans, except for two loans, that had previously received deferrals in 2020 and 2021 were no longer deferred and had made the contractually due payments. These modified loans were not considered TDRs under the CARES Act and the Economic Aid Act. The two loans consisted of one hotel loan totaling \$3.1 million that was placed on non-accrual in the third quarter of 2020 and one residential mortgage loan for \$871,000 that was placed on non-accrual in the first quarter of 2021.

## (5) Revenue from Contracts with Customers

All of the Company’s revenue from contracts with customers within the scope of ASC 606 is recognized within non-interest income. The following table presents the Company’s sources of non-interest income for the three and six months ended June 30, 2021 and 2020. Items outside the scope of ASC 606 are noted as such.

(Dollars in thousands)	Three months ended		Six months ended	
	June 30, 2021	June 30, 2020	June 30, 2021	June 30, 2020
<b>Service charges on deposit accounts:</b>				
Overdraft fees	\$ 32	\$ 30	\$ 69	\$ 125
Other	75	102	155	220
Interchange income	187	152	350	301

	<u>\$ 3,735</u>	<u>\$ 3,100</u>	<u>\$ 7,813</u>	<u>\$ 5,556</u>

<sup>(1)</sup> Not within the scope of ASC 606

## (6) Share-Based Compensation

The Company’s share-based incentive plans (“Stock Plans”) authorize the issuance of an aggregate of 945,873 shares of the Company’s common stock (as adjusted for stock dividends) through awards that may be granted in the form of stock options to purchase common stock (each an “Option” and collectively, “Options”), awards of restricted shares of common stock (“Stock Awards”), restricted stock units (“RSUs”), stock appreciation rights or such other awards as the Compensation Committee of the Board of Directors (the “Compensation Committee”) may determine.

As of June 30, 2021, there were 314,416 shares of common stock available for future grants under the Stock Plans.

The following table summarizes Options activity during the six months ended June 30, 2021:

(Dollars in thousands, except share amounts)	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value
Outstanding at January 1, 2021	134,122	\$ 11.61	4.3	\$ 731
Granted	21,500	15.56	9.5	
Exercised	(7,666)	8.94		
Outstanding at June 30, 2021	147,956	\$ 12.32	4.7	\$ 1,254
Exercisable at June 30, 2021	109,046	\$ 10.69	3.3	\$ 1,097

The fair value of each Option and the significant weighted average assumptions used to calculate the fair value of the Options granted during the six months ended June 30, 2021 were as follows:

	Grant Date January 4, 2021
Fair value of options granted	\$ 3.38
Risk-free rate of return	0.64 %
Expected option life in years	7
Expected volatility	28.47 %
Expected dividends	2.27 %

Share-based compensation expense related to Options was \$43,000 and \$45,000 for the six months ended June 30, 2021 and 2020, respectively. As of June 30, 2021, there was approximately \$124,000 of unrecognized compensation cost related to unvested Options.

The following table summarizes the activity in Stock Awards for the six months ended June 30, 2021:

(Dollars in thousands, except share amounts)	Number of Shares	Average Grant-Date Fair Value
Outstanding at January 1, 2021	129,883	\$ 12.61
Granted	39,350	18.18
Vested	(36,817)	18.26
Non-vested at June 30, 2021	132,416	\$ 12.70

Share-based compensation expense related to Stock Awards was \$530,000 and \$537,000 for the six months ended June 30, 2021 and 2020, respectively. As of June 30, 2021, there was approximately \$1.7 million of unrecognized compensation cost related to unvested Stock Awards.

The following table summarizes the activity in RSUs for the six months ended June 30, 2021:

(Dollars in thousands, except share amounts)	Number of Shares	Average Grant-Date Fair Value
Outstanding at January 1, 2021	25,817	\$ 21.24
Granted	14,250	15.56
Vested	(9,083)	16.82
Non-vested at June 30, 2021	30,984	\$ 19.92

Share-based compensation expense related to RSUs was \$203,000 and \$112,000 for the six months ended June 30, 2021 and 2020, respectively. As of June 30, 2021, there was approximately \$441,000 of unrecognized compensation cost related to unvested RSUs.

RSUs vest pro-rata over 3 years subject to achievement of certain established performance metrics. The ultimate number of RSUs earned, if any, will depend on the performance measured over each annual period during the applicable 3-year performance period. If performance measures are achieved, the RSUs will vest upon certification of performance achievement by the Compensation Committee following each annual performance period. On March 3, 2021, the Compensation Committee certified that the applicable performance metrics were achieved at 142% of target for 2020 and 2019 vested awards. Awards of RSUs are settled in cash unless the recipient timely elects for the RSUs to be settled in shares of common stock. The RSUs are recorded as a liability by the Company and the liability is adjusted as the market value of the Company's stock price changes.

## (7) Benefit Plans

The Bank has a 401(k) plan that covers substantially all employees with six months or more of service. The Bank's 401(k) plan permits all eligible employees to make contributions to the plan up to the IRS salary deferral limit. The Bank's contributions to the 401(k) plan are expensed as incurred.

The Company also provides retirement benefits to certain employees under supplemental executive retirement plans. The plans are unfunded and the Company accrues actuarially determined benefit costs over the estimated service period of the employees in the plans. The Company recognizes the over-funded or under-funded status of a defined benefit post-retirement plan as an asset or liability on its balance sheet and recognizes changes in that funded status in the year in which the changes occur through comprehensive income. At June 30, 2021 and December 31, 2020, the Company's President and Chief Executive Officer was the only eligible participant in the supplemental executive retirement plans.

In connection with the benefit plans, the Bank has life insurance policies on the lives of its executive officers, directors and certain employees. The Bank is the owner and beneficiary of these policies. The cash surrender values of these policies totaled approximately \$37.7 million and \$37.3 million at June 30, 2021 and December 31, 2020, respectively.

The components of net periodic expense for the Company's supplemental executive retirement plans for the three and six months ended June 30, 2021 and 2020 were as follows:

(Dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Service cost	\$ 50	\$ 45	\$ 99	\$ 92
Interest cost	46	41	92	82
Actuarial gain recognized	(89)	(56)	(178)	(100)
Total	\$ 7	\$ 30	\$ 13	\$ 74

## (8) Other Comprehensive Income (Loss) and Accumulated Other Comprehensive Income (Loss)

Other comprehensive income (loss) is the total of (1) net income (loss) and (2) all other changes in equity from non-shareholder sources, which are referred to as other comprehensive income (loss). The components of accumulated other comprehensive income (loss), and the related tax effects, are as follows:

(Dollars in thousands)	June 30, 2021		
	Before-Tax Amount	Income Tax Effect	Net-of-Tax Amount
Net unrealized holding gains on investment securities available for sale	\$ 1,988	\$ (496)	\$ 1,492
Unrealized impairment loss on held to maturity security	(459)	109	(350)
Gains on unfunded pension liability	203	(57)	146
Accumulated other comprehensive income	\$ 1,732	\$ (444)	\$ 1,288

(Dollars in thousands)	December 31, 2020		
	Before-Tax Amount	Income Tax Effect	Net-of-Tax Amount
Net unrealized holding gains on investment securities available for sale	\$ 2,616	\$ (644)	\$ 1,972
Unrealized impairment loss on held to maturity security	(472)	112	(360)
Gains on unfunded pension liability	444	(124)	320
Accumulated other comprehensive income	<u>\$ 2,588</u>	<u>\$ (656)</u>	<u>\$ 1,932</u>

Changes in the components of accumulated other comprehensive income (loss) are as follows and are presented net of tax for the three and six months ended June 30, 2021 and June 30, 2020:

(Dollars in thousands)	Unrealized Holding Gains (Losses) on Available for Sale Securities	Unrealized Impairment Loss on Held to Maturity Security	Unfunded Pension Liability	Accumulated Other Comprehensive Income (Loss)
Balance - April 1, 2021	\$ 1,457	\$ (355)	\$ 232	\$ 1,334
Other comprehensive income (loss) before reclassifications	37	—	(23)	14
Amounts reclassified from accumulated other comprehensive income (loss)	—	5	(63)	(58)
Reclassification adjustment for gains realized in income	(2)	—	—	(2)
Other comprehensive income (loss)	<u>35</u>	<u>5</u>	<u>(86)</u>	<u>(46)</u>
Balance - June 30, 2021	<u>\$ 1,492</u>	<u>\$ (350)</u>	<u>\$ 146</u>	<u>\$ 1,288</u>
Balance - Balance - April 1, 2020	\$ 161	\$ (372)	\$ 270	\$ 59
Other comprehensive income before reclassifications	1,298	—	60	1,358

Balance - June 30, 2020	<u>\$ 1,452</u>	<u>\$ (369)</u>	<u>\$ 291</u>	<u>\$ 1,374</u>

## **(9) Recent Accounting Pronouncements**

### ***Accounting Standards Update ("ASU") 2016-13 - Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments***

In June 2016, the FASB issued ASU No. 2016-13 "Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments," which requires credit losses on most financial assets to be measured at amortized cost and certain other instruments to be measured using an expected credit loss model (referred to as the current expected credit loss (CECL) model).

Under this model, entities will estimate credit losses over the entire contractual term of the instrument (considering estimated prepayments but not expected extensions or modifications unless reasonable expectation of a troubled debt restructuring exists) from the date of initial recognition of that instrument.

The ASU also replaces the current accounting model for purchased credit impaired loans and debt securities. The allowance for credit losses for purchased financial assets with a more-than-insignificant amount of credit deterioration since origination ("PCD assets") should be determined in a similar manner to other financial assets measured on an amortized cost basis. Upon initial recognition, the allowance for credit losses is added to the purchase price ("gross up approach") to determine the initial amortized cost basis. The subsequent accounting for PCD assets will use the CECL model described above.

The ASU made certain targeted amendments to the existing impairment model for available-for-sale (AFS) debt securities. For an AFS debt security for which there is neither the intent nor a more-likely-than-not requirement to sell, an entity will record credit losses as an allowance rather than a write-down of the amortized cost basis.

For the Company, the provisions of this ASU are effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. Early adoption is permitted for all entities as of the fiscal year beginning after December 15, 2018, including interim periods within those fiscal years.

The Company has completed the initial analysis of its financial assets and will continue to build and validate the CECL models in 2021 to evaluate the impact of the adoption of the new standard on its consolidated financial statements.

In April 2019, the FASB issued ASU 2019-04, Codification Improvements to Topic 326, Financial Instruments-Credit Losses, Topic 815, Derivatives and Hedging, and Topic 825, Financial Instruments. The amendments in this ASU make minor improvements to the Codification by eliminating certain inconsistencies and clarifying the current guidance.

In June 2019, the FASB issued ASU 2019-05, Financial Instruments-Credit Losses (Topic 326): Targeted Transition Relief. This ASU provides optional targeted transition relief that allows reporting entities to irrevocably elect the fair value option on financial instruments that 1) were previously recorded at amortized cost and 2) are within the scope of Topic 326 if the instruments are eligible for the fair value option under Topic 825. The new guidance is effective for public companies for annual reporting periods and interim periods within those annual periods beginning after December 15, 2019. See the discussion regarding the adoption of ASU 2016-13 above.

In November 2019, the FASB issued ASU No. 2019-10, "Financial Instruments - Credit Losses (Topic 326), Derivatives and Hedging (Topic 815), and Leases (Topic 842). ASU 2019-10 provides that the FASB's recently developed philosophy regarding the implementation of effective dates applies to ASU 2016-13, Financial Instruments - Credit Losses (Topic 326), among other ASUs. For the Company, the provisions of this ASU are effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. Early adoption is permitted for all entities as of the fiscal year beginning after December 15, 2018, including interim periods within those fiscal years. See the discussion regarding the adoption of ASU 2016-13 above.

Also in November 2019, the FASB issued ASU No. 2019-11, "Financial Instruments - Credit Losses: Codification improvements (Topic 326)" to clarify its new credit impairment guidance in ASC 326, based on implementation issues raised by stakeholders. ASU 2019-11 clarifies that expected recoveries are to be included in the allowance for credit losses for these financial assets; an accounting policy election can be made to adjust the effective interest rate for existing troubled debt restructurings based on the prepayment assumptions instead of the prepayment assumptions applicable immediately prior to the restructuring event; and extends the practical expedient to exclude accrued interest receivable from all additional relevant disclosures involving the amortized cost basis. For the Company, the provisions of this ASU are effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. Early adoption is permitted for all entities as of the fiscal year beginning after December 15, 2018, including interim periods within those fiscal years. See the discussion regarding the adoption of ASU 2016-13 above.

### ***ASU 2019-12 - Income Taxes (Topic 740) - Simplifying the Accounting for Income Taxes***

In December 2019, the FASB issued ASU 2019-12, "Income Taxes (Topic 740) - Simplifying the Accounting for Income Taxes." This ASU removes the exception to the incremental approach for intraperiod tax allocation when there is a loss from continuing operations and income or a gain from other items and removes the exception to the interim period income tax accounting when a year-to-date loss exceeds the anticipated loss for the year. ASU 2019-12 also simplifies the accounting for income taxes by requiring that an entity recognize a franchise tax that is partially based on income as an income-based tax, that an entity evaluate when a step up in the tax basis of goodwill should be considered part of the business combination in which the book goodwill originally was recognized, and that an entity reflect the effect of an enacted change in tax laws or rates in the annual effective tax rate computation in the interim period that includes the enactment date. For public business entities, ASU 2019-12 is effective for interim and annual periods beginning after December 15, 2020. The Company adopted this standard as of January 1, 2021. The adoption of this ASU did not have a material impact on the Company's consolidated financial statements.

### ***ASU 2020-02 - Financial Instruments - Credit Losses (Topic 326) and Leases (Topic 842)***

In January 2020, the FASB issued ASU No. 2020-02, "Financial Instruments - Credit Losses (Topic 326) and Leases (Topic 842):" Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 119 and Update to SEC Section on Effective Date Related to Accounting Standards Update No. 2016-02, Leases (Topic 842)." This ASU adds and amends SEC paragraphs in the Accounting Standards Codification to reflect the issuance of SEC Staff Accounting Bulletin No. 119, related to the new credit losses standard, and comments by the SEC staff related to the revised effective date of the new leases standard. This ASU is effective upon issuance. See the discussion regarding the adoption of ASU 2016-13 above.

### ***ASU 2020-03 - Codification Improvements to Financial Instruments***

In March 2020, the FASB issued ASU No. 2020-03, "Codification Improvements to Financial Instruments." This ASU clarifies various financial instruments topics, including the CECL standard issued in 2016. Amendments related to ASU 2016-13 for entities that have not yet adopted that guidance are effective upon adoption of the amendments in ASU 2016-13. Early adoption is not permitted before an entity's adoption of ASU 2016-13. Other amendments are effective upon issuance of this ASU. See the discussion regarding the adoption of ASU 2016-13 above.

### ***ASU 2020-04 - Reference Rate Reform (Topic 848)***

In March 2020, the FASB issued ASU No. 2020-04, "Reference Rate Reform (Topic 848)" which provides optional expedients and exceptions for applying U.S. GAAP to contract modifications and hedging relationships that reference LIBOR or another reference rate expected to be discontinued, subject to meeting certain criteria. Under the new guidance, an entity can elect by accounting topic or industry subtopic to account for the modification of a contract affected by reference rate reform as a continuation of the existing contract, if certain conditions are met. In addition, the new guidance allows an entity to elect on a hedge-by-hedge basis to continue to apply hedge accounting for hedging relationships in which the critical terms change due to reference rate reform, if certain conditions are met. A one-time election to sell and/or transfer held-to-maturity debt securities that reference a rate affected by reference rate reform is also allowed. ASU No. 2020-04 became effective for all entities as of March 12, 2020 and will apply to all LIBOR reference rate modifications through December 31, 2022. For the Company, the provisions of this ASU were effective upon issuance and did not have a material impact on the Company's consolidated financial statements.

### ***ASU 2021-01 - Reference Rate Reform (Topic 848)***

In January 2021, the FASB issued ASU No. 2021-01, "Reference Rate Reform (Topic 848)." The amendments in this update clarify that certain optional expedients and exceptions in Topic 848 for contract modifications and hedge accounting apply to derivatives that are affected by the discounting transition. Specifically, certain provisions in Topic 848, if elected by an entity, apply to derivative instruments that use an interest rate for margining, discounting, or contract price alignment that is modified as a result of reference rate reform. Amendments in this update to the expedients and exceptions in Topic 848 capture the incremental consequences of the scope clarification and tailor the existing guidance to derivative instruments affected by the discounting transition. ASU No. 2021-01 became immediately effective for all entities, which may elect to apply the update retrospectively as of any date from the beginning of an interim period that includes or is subsequent to March 12, 2020, or prospectively to new modifications from any date within an interim period that includes or is subsequent to the issuance date of ASU No. 2021-01 up to the date that financial statements are available to be issued. In addition, ASU No. 2021-01 applies to all contract modifications made through December 31, 2022. For the Company, the provisions of this ASU were effective upon issuance and did not have a material impact on the Company's consolidated financial statements.

## (10) Fair Value Disclosures

U.S. GAAP has established a fair value hierarchy that prioritizes the inputs to valuation methods used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities.
- Level 2: Quoted prices in markets that are not active, or inputs that are observable either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported with little or no market activity).

An asset's or liability's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below. These valuation methodologies were applied to all of the Company's financial assets and financial liabilities carried at fair value.

In general, fair value is based upon quoted market prices, where available. If such quoted market prices are not available, fair value is based upon models that primarily use, as inputs, observable market-based parameters. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value. These adjustments may include amounts to reflect counterparty credit quality and counterparty creditworthiness, among other things, as well as unobservable parameters. Any such valuation adjustments are applied consistently over time. The Company's valuation methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. While management believes the Company's valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

*Securities Available for Sale.* Securities classified as available for sale are reported at fair value utilizing Level 1 and Level 2 inputs. For Level 2 securities, the fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayments speeds, credit information and the security's terms and conditions, among other things.

*Interest Rate Lock Derivatives.* Interest rate lock commitments do not trade in active markets with readily observable prices. The fair value of an interest rate lock commitment is estimated based upon the forward sales price that is obtained in the best efforts commitment, taking into consideration the probability that the locked rate commitment will close.

*Impaired Loans.* Impaired loans are those which the Company has measured and recognized impairment, generally based on the fair value of the loan's collateral. Fair value is generally determined based upon independent third-party appraisals of the collateral or discounted cash flows based on the expected proceeds. These assets are included as Level 3 fair values, based upon the lowest level of input that is significant to the fair value measurements. The fair value consists of the loan balances less specific valuation allowances.

*Other Real Estate Owned.* Foreclosed properties are adjusted to fair value less estimated selling costs at the time of foreclosure in preparation for transfer from portfolio loans to other real estate owned ("OREO"), thereby establishing a new accounting basis. The Company subsequently adjusts the fair value of the OREO, utilizing Level 3 inputs on a non-recurring basis to reflect partial write-downs based on the observable market price, the current appraised value of the asset or other estimates of fair value. The fair value of other real estate owned is determined using appraisals, which may be discounted based on management's review and changes in market conditions.

The following table summarizes financial assets and financial liabilities measured at fair value on a recurring basis segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value:

(Dollars in thousands)	June 30, 2021			
	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	Total Fair Value
<b>Securities available for sale:</b>				
U.S. Treasury securities and obligations of U.S. Government sponsored entities (“GSE”)	\$ —	\$ 2,769	\$ —	\$ 2,769
Residential collateralized mortgage obligations - GSE	—	37,071	—	37,071
Residential mortgage backed securities - GSE	—	27,126	—	27,126
Obligations of state and political subdivisions	3,487	21,520	—	25,007
Corporate debt securities	6,186	15,103	—	21,289
Other debt securities	—	17,624	—	17,624
Interest rate lock derivatives	—	351	—	351
<b>Total</b>	<b>\$ 9,673</b>	<b>\$ 121,564</b>	<b>\$ —</b>	<b>\$ 131,237</b>

(Dollars in thousands)	December 31, 2020			
	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	Total Fair Value
<b>Securities available for sale:</b>				
U.S. Treasury securities and obligations of U.S. Government sponsored entities (“GSE”)	\$ —	\$ 3,439	\$ —	\$ 3,439
Residential collateralized mortgage obligations - GSE	—	36,779	—	36,779
Residential mortgage backed securities - GSE	—	13,597	—	13,597
Obligations of state and political subdivisions	—	27,452	—	27,452
Corporate debt securities	9,287	12,080	—	21,367
Other debt securities	—	22,563	—	22,563
Interest rate lock derivatives	—	537	—	537
<b>Total</b>	<b>\$ 9,287</b>	<b>\$ 116,447</b>	<b>\$ —</b>	<b>\$ 125,734</b>

Certain assets and liabilities are measured at fair value on a nonrecurring basis; that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). Assets and liabilities subject to fair value adjustments (impairment) on a nonrecurring basis at June 30, 2021 and December 31, 2020 were as follows:

(Dollars in thousands)	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	Total Fair Value
<b>June 30, 2021</b>				
Impaired loans	\$ —	\$ —	\$ 11,689	\$ 11,689
Other real estate owned	—	—	48	48
<b>December 31, 2020</b>				
Impaired loans	\$ —	\$ —	\$ 8,769	\$ 8,769
Other real estate owned	—	—	92	92

Impaired loans measured at fair value and included in the above table at June 30, 2021 consisted of 7 loans having an aggregate recorded investment of \$15.1 million and specific loan loss allowance of \$3.4 million. Impaired loans measured at fair value and included in the above table at December 31, 2020 consisted of 5 loans having an aggregate balance of \$10.9 million with specific loan loss allowance of \$2.1 million.

The following table presents additional qualitative information about assets measured at fair value on a nonrecurring basis, where there was evidence of impairment, and for which the Company has utilized Level 3 inputs to determine fair value:

(Dollars in thousands)	Fair Value Estimate	Valuation Techniques	Unobservable Input	Range (Weighted Average)
June 30, 2021				
Impaired loans	\$ 11,689	Appraisal of collateral <sup>(1)</sup>	Appraisal adjustments <sup>(2)</sup>	5.3% - 29.6% (16.8%)
Other real estate owned	\$ 48	Appraisal of collateral <sup>(1)</sup>	Appraisal adjustments <sup>(2)</sup>	89.0% (89.0%)
December 31, 2020				
Impaired loans	\$ 8,769	Appraisal of collateral <sup>(1)</sup>	Appraisal adjustments <sup>(2)</sup>	0.1% - 40.4% (12.6%)
Other real estate owned	\$ 92	Appraisal of collateral <sup>(1)</sup>	Appraisal adjustments <sup>(2)</sup>	79.0% (79.0%)

<sup>(1)</sup> Fair value is generally determined through independent appraisals of the underlying collateral, which generally include various Level 3 inputs that are not identifiable.

<sup>(2)</sup> Includes qualitative adjustments by management and estimated liquidation expenses.

The following is a summary of fair value versus carrying value of all of the Company's financial instruments. For the Company and the Bank, as with most financial institutions, the bulk of assets and liabilities are considered financial instruments. Many of the financial instruments lack an available trading market as characterized by a willing buyer and willing seller engaging in an exchange transaction. Therefore, significant estimations and present value calculations were used for the purpose of this note. Changes in assumptions could significantly affect these estimates.

The estimated fair values and carrying amounts of financial assets and liabilities as of June 30, 2021 and December 31, 2020 were as follows:

(Dollars in thousands)	June 30, 2021				Fair Value
	Carrying Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	
Cash and cash equivalents	\$ 215,677	\$ 215,677	\$ —	\$ —	\$ 215,677
Securities available for sale	130,886	9,673	121,213	—	130,886
Securities held to maturity	97,993	—	100,764	—	100,764
Loans held for sale	6,017	—	6,165	—	6,165
Net loans	1,218,517	—	—	1,259,926	1,259,926
SBA servicing asset	827	—	1,209	—	1,209
Interest rate lock derivative	351	—	351	—	351
Accrued interest receivable	4,306	—	4,306	—	4,306
FHLB stock	1,087	—	1,087	—	1,087
Deposits	(1,546,061)	—	(1,546,586)	—	(1,546,586)
Short-term borrowings	—	—	—	—	—
Redeemable subordinated debentures	(18,557)	—	(14,191)	—	(14,191)
Accrued interest payable	(530)	—	(530)	—	(530)

December 31, 2020

(Dollars in thousands)	Carrying Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	Fair Value
Cash and cash equivalents	\$ 21,995	\$ 21,995	\$ —	\$ —	\$ 21,995
Securities available for sale	125,197	9,287	115,910	—	125,197
Securities held to maturity	92,552	—	95,640	—	95,640
Loans held for sale	29,782	—	30,618	—	30,618
Net loans	1,418,065	—	—	1,463,821	1,463,821
SBA servicing asset	795	—	1,209	—	1,209
Interest rate lock derivative	537	—	537	—	537
Accrued interest receivable	5,273	—	5,273	—	5,273
FHLB stock	1,498	—	1,498	—	1,498
Deposits	(1,562,839)	—	(1,564,431)	—	(1,564,431)
Short-term borrowings	(9,825)	—	(9,825)	—	(9,825)
Redeemable subordinated debentures	(18,557)	—	(10,932)	—	(10,932)
Accrued interest payable	(851)	—	(851)	—	(851)

Loan commitments and standby letters of credit as of June 30, 2021 and December 31, 2020 were based on fees charged for similar agreements; accordingly, the estimated fair value of loan commitments and standby letters of credit was nominal.

### (11) Leases

At June 30, 2021, the Company had 34 operating leases under which the Company is a lessee. Of the 34 leases, 22 leases were for real property, including leases for 18 of the Company's branch offices and 4 leases for general office space including the Company's headquarters. All of the real property leases include one or more options to extend the lease term. Four of the branch office leases are for the land on which the branch offices are located and the Company owns the leasehold improvements.

In addition, the Company had 12 leases for office equipment, consisting primarily of copiers and printers. None of these leases include extensions and generally have three to five year terms.

At June 30, 2021, the Company did not have any finance leases.

For the three and six months ended June 30, 2021 and 2020, the Company recognized rent and equipment expense associated with leases as follows:

(In thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Operating lease cost:				
Fixed rent expense and equipment expense	\$ 622	\$ 670	\$ 1,289	\$ 1,337
Variable rent expense	—	—	—	—
Short-term lease expense	4	11	6	23
Sublease income	—	—	—	—
Net lease cost	<u>\$ 626</u>	<u>\$ 681</u>	<u>\$ 1,295</u>	<u>\$ 1,360</u>

(In thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Lease cost - occupancy expense	\$ 619	\$ 626	\$ 1,232	\$ 1,240
Lease cost - other expense	7	55	63	120
Net lease cost	<u>\$ 626</u>	<u>\$ 681</u>	<u>\$ 1,295</u>	<u>\$ 1,360</u>

For the six months ended June 30, 2021 and 2020, the following cash and non-cash activities were associated with the leases:

(In thousands)	Six Months Ended June 30,	
	2021	2020
Cash paid for amounts included in the measurement of lease liabilities:		
Operating cash flows from operating leases	\$ 1,229	\$ 1,266
Non-cash investing and financing activities:		
Additions to right-of-use assets obtained from:		
Net lease cost	—	—
New operating lease liabilities	11	144

The future payments due under operating leases at June 30, 2021 and 2020 were as follows:

(In thousands)	At June 30,	
	2021	2020
Due in less than one year	\$ 2,113	\$ 2,058
Due in one year but less than two years	2,056	2,030
Due in two years but less than three years	1,930	2,021
Due in three years but less than four years	1,766	1,929
Due in four years but less than five years	1,682	1,766
Thereafter	12,601	14,243
Total future payments	\$ 22,148	\$ 24,047
Less: Implied interest	(5,536)	(6,011)
Total lease liability	\$ 16,612	\$ 18,036

At June 30, 2021 and 2020, future payments due under operating leases were based on ASC Topic 842 and included, in general, at least one lease renewal option on all real estate leases except on one land lease where all renewal options were included. As of June 30, 2021, the weighted-average remaining lease term for all operating leases was 14.5 years. The weighted average discount rate associated with the operating leases at June 30, 2021 was 3.32%.

## (12) Borrowings

The Company has borrowing lines established with the FHLB and other correspondent banks. At June 30, 2021, the Company had no borrowings. Overnight or short-term borrowings at December 31, 2020 totaled \$9.8 million with an average interest rate of 0.34%. These borrowings are primarily used to fund asset growth not supported by deposit generation.

At June 30, 2021, unused overnight or borrowing potential totaled \$247.6 million from the FHLB and unused Fed Funds borrowing commitments were \$46.0 million from correspondent banks.

## (13) Pending Merger With and Into Lakeland Bancorp

On July 11, 2021, the Company entered into an Agreement and Plan of Merger (the “Merger Agreement”) with Lakeland Bancorp, Inc., a New Jersey corporation (“Lakeland”). The Merger Agreement provides that, upon the terms and subject to the conditions set forth therein, the Company will merge with and into Lakeland, with Lakeland continuing as the surviving entity (the “Merger”). The Merger Agreement also provides that, immediately following the consummation of the Merger, the Bank will merge with and into Lakeland Bank, a New Jersey-chartered commercial bank (“Lakeland Bank”) and a wholly-owned subsidiary of Lakeland, with Lakeland Bank continuing as the surviving bank. The Merger Agreement was approved by the Boards of Directors of each of Lakeland and the Company.

Subject to the terms and conditions of the Merger Agreement, upon completion of the Merger (the “Effective Time”), shareholders of the Company will receive, for each outstanding share of 1st Constitution Bancorp common stock that they own at the Effective Time, 1.3577 shares of Lakeland common stock. Cash will be paid in lieu of fractional shares.

Also at the Effective Time (i) all shares of 1st Constitution Bancorp common stock held by 1st Constitution Bancorp as treasury stock and (ii) all shares of 1st Constitution Bancorp common stock owned directly or indirectly by Lakeland or the Company or any of their respective subsidiaries (other than shares in trust accounts, managed accounts and the like for the benefit of customers or shares held in satisfaction of a debt previously contracted), will be canceled and no consideration will be delivered in exchange therefor. Outstanding 1st Constitution Bancorp stock options and performance-based restricted stock units will be cashed out in the Merger. Outstanding 1st Constitution Bancorp restricted stock will vest and will be converted into the right to receive, at the Effective Time, the same consideration that holders of 1st Constitution Bancorp common stock are receiving in the Merger. Each outstanding share of Lakeland common stock will remain outstanding and be unaffected by the Merger.

## **Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations**

When used in this Quarterly Report on Form 10-Q for the three and six months ended June 30, 2021 (this “Form 10-Q”), the words “the Company,” “we,” “our,” and “us” refer to 1<sup>ST</sup> Constitution Bancorp and, as the context requires, its wholly-owned subsidiary, 1<sup>ST</sup> Constitution Bank (the “Bank”), the Bank’s wholly-owned subsidiaries, 1<sup>ST</sup> Constitution Investment Company of New Jersey, Inc. and FCB Assets Holdings, Inc., and 1<sup>ST</sup> Constitution Real Estate Investment Corporation, which is indirectly owned by the Bank. 1<sup>ST</sup> Constitution Capital Trust II (“Trust II”), a subsidiary of the Company, is not included in the Company’s consolidated financial statements as it is a variable interest entity and the Company is not the primary beneficiary. Trust II, a subsidiary of the Company, was created in May 2006 to issue trust preferred securities to assist the Company in raising additional capital.

This discussion and analysis of the operating results for the three and six months ended June 30, 2021 and financial condition at June 30, 2021 is intended to help readers analyze the accompanying financial statements, notes and other supplemental information contained in this Form 10-Q. Results of operations for the three- and six-month periods ended June 30, 2021 are not necessarily indicative of results to be attained for any other period.

This discussion and analysis should be read in conjunction with the consolidated financial statements, notes and tables included elsewhere in this Form 10-Q and Part II, Item 7 of the Company’s Form 10-K (Management’s Discussion and Analysis of Financial Condition and Results of Operation) for the year ended December 31, 2020, as filed with the Securities and Exchange Commission (the “SEC”) on March 15, 2021 (the “2020 Form 10-K”).

### **Forward-Looking Statements**

This Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). The Private Securities Litigation Reform Act of 1995 provides a “safe harbor” for forward-looking statements. When used in this and in future filings by the Company with the SEC, and in the Company’s written and oral statements made with the approval of an authorized executive officer of the Company, the words or phrases “will,” “will likely result,” “could,” “should,” “may,” “anticipates,” “believes,” “continues,” “expects,” “intends,” “plans,” “will continue,” “is anticipated,” “estimated,” “project” or “outlook” or similar expressions (including confirmations by an authorized executive officer of the Company of any such expressions made by a third party with respect to the Company) are intended to identify forward-looking statements. The Company cautions readers not to place undue reliance on any such forward-looking statements, each of which speaks only as of the date made. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical earnings and those presently anticipated or projected.

These forward-looking statements are based upon our opinions and estimates as of the date they are made and are not guarantees of future performance. Although we believe that the expectations reflected in these forward-looking statements are reasonable, such forward-looking statements are subject to known and unknown risks and uncertainties that may be beyond our control, which could cause actual results, performance and achievements to differ materially from results, performance and achievements projected, expected, expressed or implied by the forward-looking statements.

Examples of factors or events that could cause actual results to differ materially from historical results or those anticipated, expressed or implied include, without limitation, changes in the overall economy and interest rate changes; inflation, market and monetary fluctuations; the ability of our customers to repay their obligations; the accuracy of our financial statement estimates and assumptions, including the adequacy of the estimates made in connection with determining the adequacy of the allowance for loan losses; increased competition and its effect on the availability and pricing of deposits and loans; significant changes in accounting, tax or regulatory practices and requirements; changes in deposit flows, loan demand or real estate values; the enactment of legislation or regulatory changes; changes in monetary and fiscal policies of the U.S. government; changes to the method that LIBOR rates are determined and to the phasing out of LIBOR after 2021; changes in loan delinquency rates or in our levels of nonperforming assets; our ability to declare and pay dividends; changes in the economic climate in the market areas in which we operate; the frequency and magnitude of foreclosure of our loans; changes in consumer spending and saving habits; the effects of the health and soundness of other financial institutions, including the need of the FDIC to increase the Deposit Insurance Fund assessments; technological changes; the effects of climate change and harsh weather conditions, including hurricanes and man-made disasters; the economic impact of any future terrorist threats and attacks, acts of war or threats thereof and the response of the United States to any such threats and attacks; failure to consummate the merger of 1st Constitution Bancorp with and into Lakeland Bancorp, Inc. (“Lakeland”), with Lakeland as the surviving entity (the “Merger”), for any reason, including the failure to obtain necessary regulatory approvals (and the risk that such approvals may result in the imposition of conditions that could adversely affect the combined company), failure to obtain shareholder approvals or failure to satisfy any of the other closing conditions in a timely basis or at all; the diversion of management’s time from ongoing business operations due to issues relating to the Merger; the occurrence of any event, change or other circumstances that could give rise to the right of one or both of the parties to terminate the

Agreement and Plan of Merger, dated as of July 11, 2021, by and between Lakeland and 1st Constitution Bancorp (the “Merger Agreement”); the outcome of any legal proceedings that may be instituted against Lakeland or the Company; potential adverse reactions or changes to business or employee relationships, including those resulting from the announcement or completion of the transaction; other risks described from time to time in our filings with the SEC; and our ability to manage the risks involved in the foregoing. Further, the foregoing factors may be exacerbated by the ultimate impact of the Novel Coronavirus (“COVID-19”) pandemic, which is unknown at this time.

In addition, statements about the COVID-19 pandemic and the potential effects and impacts of the COVID-19 pandemic on the Company’s business, financial condition, liquidity and results of operations may constitute forward-looking statements and are subject to the risk that actual results may differ, possibly materially, from what is reflected in such forward-looking statements due to factors and future developments that are uncertain, unpredictable and, in many cases, beyond our control, including the scope, duration and extent of the pandemic, actions taken by governmental authorities in response to the pandemic and the direct and indirect impact of the pandemic on our employees, customers, business and third-parties with which we conduct business.

Although management has taken certain steps to mitigate any negative effect of the aforementioned factors and the COVID-19 pandemic, significant unfavorable changes could severely impact the assumptions used and have an adverse effect on profitability. Additional information concerning the factors that could cause actual results to differ materially from those in the forward-looking statements is contained in Item 1. “Business,” Item 1A. “Risk Factors,” Item 7. “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” elsewhere in the 2020 Form 10-K and in our other filings with the SEC, and in Part II, Item 1A of this Form 10-Q. However, other factors besides those listed in Item 1A. “Risk Factors” or discussed in the 2020 Form 10-K or this Form 10-Q also could adversely affect our results and you should not consider any such list of factors to be a complete list of all potential risks or uncertainties. Any forward-looking statements made by us or on our behalf speak only as of the date they are made. We undertake no obligation to publicly revise any forward-looking statements or cautionary factors, except as required by law.

## **OVERVIEW**

The Company is a bank holding company registered under the Bank Holding Company Act of 1956, as amended. The Company was organized under the laws of the State of New Jersey in February 1999 for the purpose of acquiring all of the issued and outstanding stock of the Bank, a full-service commercial bank that began operations in August 1989, thereby enabling the Bank to operate within a bank holding company structure. The Company became an active bank holding company on July 1, 1999. Other than its ownership interest in the Bank, the Company currently conducts no other significant business activities.

The Bank operates 25 branches and manages its investment portfolio through its subsidiary, 1<sup>ST</sup> Constitution Investment Company of New Jersey, Inc. FCB Assets Holdings, Inc., a subsidiary of the Bank, is used by the Bank to manage and dispose of repossessed real estate.

On July 11, 2021, the Company and Lakeland (NASDAQ: LBAI), the holding company for Lakeland Bank, entered into the Merger Agreement, providing for the Merger of the Company with and into Lakeland, with Lakeland continuing as the surviving entity. The Merger Agreement provides that, immediately following the consummation of the Merger, the Bank will merge with and into Lakeland Bank (the “Bank Merger”). For additional discussion of the Merger and the Bank Merger, see Note 13 to the financial statements contained in Part I, Item 1 of this Form 10-Q.

### COVID-19 Impact and Response

As the Company conducts its daily operations, the health and safety of our employees and customers remains our primary concern and we continue to maintain the same measures and protective procedures that we implemented in 2020.

During the first half of 2021, the Company continued working with customers impacted by the economic disruption. To support our loan and deposit customers and the communities we serve, we continue to provide access to additional credit and forbearance on loan interest and or principal payments for up to 90 days where management has determined that it is warranted.

- All loans except for two that had previously received deferrals were no longer deferred at June 30, 2021. The two loans consisted of one hotel loan for \$3.1 million that was placed on non-accrual in the third quarter of 2020 and one residential mortgage loan for \$871,000 that was placed on non-accrual in the first quarter of 2021.
- As a long-standing SBA preferred lender, we actively participated in the SBA’s PPP lending program established under the Coronavirus Aid, Relief and Economic Security Act (the “CARES Act”). In 2020, we funded 467 SBA PPP loans totaling \$75.6 million, \$70.6 million of which had been forgiven by the SBA through the end of the second quarter of 2021.
- The Economic Aid to Hard-Hit Small Business, Not for Profits and Venues Act (“Economic Aid Act”) was enacted in December 2020 in further response to the COVID-19 pandemic. Among other things, the Economic Aid Act provided

relief to borrowers to access additional credit through a second round of the SBA's PPP. We actively participated in the second round PPP and funded loans totaling \$35.3 million, \$4.4 million of which had been forgiven by the SBA through the end of the second quarter of 2021.

## RESULTS OF OPERATIONS

### *Three and Six Months Ended June 30, 2021 Compared to Three and Six Months Ended June 30, 2020*

#### Summary

The Company reported net income of \$5.2 million and diluted earnings per share of \$0.50 for the three months ended June 30, 2021 compared to net income of \$3.7 million and diluted earnings per share of \$0.36 for the three months ended June 30, 2020. Net income increased 39.6% and diluted earnings per share increased 38.9% for the second quarter of 2021 compared to the second quarter of 2020. For the six months ended June 30, 2021, net income was \$10.1 million, or \$0.98 per diluted share, compared to net income of \$7.1 million, or \$0.69 per diluted share, for the six months ended June 30, 2020. Net income increased 41.8% and diluted earnings per share increased 42.0% for the first six months of 2021 compared to the first six months of 2020.

Return on average total assets and return on average shareholders' equity were 1.15% and 10.73%, respectively, for the three months ended June 30, 2021 compared to return on average total assets and return on average shareholders' equity of 0.89% and 8.50%, respectively, for the three months ended June 30, 2020. Return on average total assets and return on average shareholders' equity were 1.12% and 10.66%, respectively, for the six months ended June 30, 2021 compared to return on average total assets and return on average shareholders' equity of 0.89% and 8.26%, respectively, for the six months ended June 30, 2020. Book value per share was \$19.02 at June 30, 2021 compared to \$18.32 at December 31, 2020.

On July 11, 2021, the Company entered into the Merger Agreement with Lakeland pursuant to which the Company will merge with and into Lakeland and the Bank will merge with and into Lakeland Bank. Expenses of \$447,000 related to the Merger were incurred in the three months ended June 30, 2021. No merger-related expenses were incurred in the three months ended June 30, 2020.

Adjusted net income increased 49.1% to \$5.5 million, for the second quarter of 2021 compared to adjusted net income of \$3.7 million for the second quarter of 2020. Adjusted net income per diluted share increased 47.2% to \$0.53 for the second quarter of 2021 compared to adjusted net income per diluted share of \$0.36 for the second quarter of 2020. For the six months ended June 30, 2021, adjusted net income was \$10.4 million, or \$1.01 per diluted share, compared to adjusted net income of \$7.2 million, or \$0.70 per diluted share, for the six months ended June 30, 2020.

Adjusted net income and adjusted net income per diluted share are non-GAAP financial measures that exclude the after-tax effect of merger-related expenses from the comparable GAAP financial measure. These and other non-GAAP financial measures should be considered in addition to, but not as a substitute for, the Company's GAAP financial results. A reconciliation of these non-GAAP financial measures to the GAAP financial results is included in the following table.

The following table reflects the reconciliation of non-GAAP financial measures<sup>(1)</sup> for the three and six months ended June 30, 2021 and 2020.

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2021	2020	2021	2020
<b>Adjusted net income</b>				
Net income	\$ 5,152	\$ 3,690	\$ 10,081	\$ 7,111
<b>Adjustments:</b>				
Merger-related expenses	447	—	447	64
Income tax effect of adjustments	(98)	—	(98)	(19)
Adjusted net income	<u>\$ 5,501</u>	<u>\$ 3,690</u>	<u>\$ 10,430</u>	<u>\$ 7,156</u>
<b>Adjusted net income per diluted share</b>				
Adjusted net income	\$ 5,501	\$ 3,690	\$ 10,430	\$ 7,156
Diluted shares outstanding	10,325,335	10,248,156	10,315,780	10,256,481
Adjusted net income per diluted share	\$ 0.53	\$ 0.36	\$ 1.01	\$ 0.70
<b>Adjusted return on average total assets</b>				
Adjusted net income	\$ 5,501	\$ 3,690	\$ 10,430	\$ 7,156
Average assets	1,804,555	1,668,600	1,811,984	1,609,991
Adjusted return on average total assets	1.22 %	0.89 %	1.16 %	0.89 %
<b>Adjusted return on average shareholders' equity</b>				
Adjusted net income	\$ 5,501	\$ 3,690	\$ 10,430	\$ 7,156
Average equity	192,675	174,603	190,692	173,217
Adjusted return on average shareholders' equity	11.45 %	8.50 %	11.03 %	8.31 %
<b>Adjusted efficiency ratio</b>				
Adjusted non-interest expenses <sup>(2)</sup>	\$ 10,084	\$ 9,837	\$ 21,185	\$ 19,566
Total revenue - tax-equivalent	18,297	17,079	37,780	32,588
Adjusted efficiency ratio	55.11 %	57.60 %	56.07 %	60.04 %
<b>Book value and tangible book value per common share</b>				
Shareholders' equity			\$ 195,657	\$ 177,484
Less: goodwill and intangible assets			35,844	36,563
Tangible shareholders' equity			159,813	140,921
Shares outstanding			10,284,848	10,219,048
Book value per common share			\$ 19.02	\$ 17.37
Tangible book value per common share			\$ 15.54	\$ 13.79

<sup>(1)</sup> The Company uses the non-GAAP financial measures of adjusted net income, adjusted net income per diluted share, adjusted return on average total assets, adjusted return on average shareholders' equity, adjusted efficiency ratio, adjusted non-interest expenses and tangible book value per common share because management believes that it is helpful to readers in understanding the Company's financial performance and the effect of the expenses related to the pending Merger on its financial statements. These non-GAAP financial measures improve the comparability of the current period results with the results of the prior periods. The Company cautions that the non-GAAP financial measures should be considered in addition to, but not as a substitute for, the Company's GAAP financial results.

<sup>(2)</sup> Adjusted non-interest expenses is calculated by subtracting merger-related expenses from total non-interest expenses. Accordingly, adjusted non-interest expenses for the three and six months ended June 30, 2021 is calculated as total non-interest expenses of \$10.5 million and \$21.6 million for the three- and six-month periods ended June 30, 2021 less \$447,000 for the three and six months ended June 30, 2021, and adjusted non-interest expenses for the three and six months ended June 30, 2020 is calculated as total non-interest expenses of \$9.8 million and \$19.6 million for the three- and six-month periods ended June 30, 2020 less merger-related expenses of \$64,000 for the six months ended June 30, 2020. There were no merger-related expenses incurred in the three months ended June 30, 2020. Total revenue-tax equivalent is calculated as net interest income tax-equivalent plus total non-interest income.

## Second Quarter 2021 Highlights

- Net income increased \$1.5 million, or 39.6%, to \$5.2 million as compared to the second quarter of 2020. Return on average total assets and return on average shareholders' equity were 1.15% and 10.73%, respectively.
- Net interest income was \$14.4 million and the net interest margin was 3.47% on a tax-equivalent basis.
- A provision for loan losses of \$600,000 was recorded and net charge-offs were \$719,000.
- Total loans were \$1.2 billion at June 30, 2021 and decreased \$59.5 million from March 31, 2021. During the second quarter of 2021, mortgage warehouse lines decreased \$25.8 million to \$241.8 million at June 30, 2021, reflecting primarily a lower volume of funding than in the first quarter of 2021. Commercial business loans decreased \$27.3 million due primarily to the forgiveness and pay-off of the Small Business Administration ("SBA") Paycheck Protection Program ("PPP") loans. Residential real estate loans held in the portfolio decreased \$6.6 million due to pay-offs of loans.
- Non-interest income was \$3.7 million for the second quarter of 2021, as residential mortgage banking operations and SBA lending generated \$2.0 million and \$775,000 gain on sales of loans, respectively.
- Non-interest-bearing demand deposits increased \$20.0 million, savings and interest-bearing transaction accounts increased \$56.6 million and certificates of deposit declined \$91.8 million during the second quarter of 2021.
- Non-performing assets were \$12.1 million, or 0.68% of total assets at June 30, 2021, representing a decrease of \$3.3 million from March 31, 2021 and included \$48,000 of other real estate owned ("OREO"). Two non-performing hotel loans totaling \$2.6 million were paid off and a charge-off of \$12,000 was incurred.

## **Earnings Analysis**

The Company's results of operations depend primarily on net interest income, which is primarily affected by the market interest rate environment, the monetary policy of the Board of Governors of the Federal Reserve System, the shape of the U.S. Treasury yield curve and the difference between the yield on interest-earning assets and the rate paid on interest-bearing liabilities. Other factors that may affect the Company's operating results are general and local economic and competitive conditions, government policies and actions of regulatory authorities.

## **Net Interest Income**

Net interest income, the Company's largest and most significant component of operating income, is the difference between interest and fees earned on loans and other earning assets and interest paid on deposits and borrowed funds. This component represented 79.4% of the Company's net revenues (defined as net interest income plus non-interest income) for the three months ended June 30, 2021 compared to 81.7% of net revenues for the three months ended June 30, 2020. Net interest income also depends upon the relative amount of average interest-earning assets, average interest-bearing liabilities and the interest rate earned or paid on them, respectively.

The following table sets forth the Company's consolidated average balances of assets and liabilities and shareholders' equity, as well as interest income and interest expense on related items, and the Company's average yield or rate for the three months ended June 30, 2021 and 2020. The average rates are derived by dividing interest income and interest expense by the average balance of assets and liabilities, respectively.

Net interest income and margin <sup>(4)</sup>		\$ 14,562	3.47 %		\$ 13,979	3.64 %

<sup>(1)</sup> Tax equivalent basis, using federal tax rate of 21% in 2021 and 2020.

<sup>(2)</sup> Loan origination fees are considered an adjustment to interest income. For the purpose of calculating loan yields, average loan balances include non-accrual loans with no related interest income and the average balance of loans held for sale.

<sup>(3)</sup> The net interest spread is the difference between the average yield on interest-earning assets and the average rate paid on interest-bearing liabilities.

<sup>(4)</sup> The net interest margin is equal to net interest income divided by average interest-earning assets.

The following table sets forth the Company's consolidated average balances of assets and liabilities and shareholders' equity, as well as interest income and interest expense on related items, and the Company's average yield or rate for the six months ended June 30, 2021 and 2020. The average rates are derived by dividing interest income and interest expense by the average balance of assets and liabilities, respectively.

<sup>(1)</sup> Tax equivalent basis, using federal tax rate of 21% in 2021 and 2020.

<sup>(2)</sup> Loan origination fees are considered an adjustment to interest income. For the purpose of calculating loan yields, average loan balances include non-accrual loans with no related interest income and the average balance of loans held for sale.

<sup>(3)</sup> The net interest spread is the difference between the average yield on interest-earning assets and the average rate paid on interest-bearing liabilities.

<sup>(4)</sup> The net interest margin is equal to net interest income divided by average interest-earning assets.

### ***Three months ended June 30, 2021 compared to three months ended June 30, 2020***

Net interest income was \$14.4 million for the second quarter of 2021 and increased \$592,000 compared to net interest income of \$13.8 million for the second quarter of 2020. Total interest income was \$15.9 million for the three months ended June 30, 2021 compared to \$16.7 million for the three months ended June 30, 2020. The decrease in total interest income was due primarily to the lower yield on average interest-earning assets and the decline in the average balance of investments and total loans.

Average interest-earning assets were \$1.7 billion, with a tax-equivalent yield of 3.81%, for the second quarter of 2021 compared to average interest-earning assets of \$1.5 billion, with a tax-equivalent yield of 4.39%, for the second quarter of 2020. The tax-equivalent yield on average interest-earning assets for the second quarter of 2021 declined 58 basis points to 3.81%, due primarily to the decline in market interest rates during 2020 to a low level that continued through the second quarter of 2021 and the significant increase in the average balance of federal funds sold/short-term investments with a yield of 0.11%.

The Federal Reserve reduced the targeted federal funds rate 150 basis points in March 2020 in response to the economic uncertainty resulting from the COVID-19 pandemic. As a result of the reductions in the targeted federal funds rate, the prime rate declined to 3.25% in March 2020 and was unchanged through the second quarter of 2021. The Bank had approximately \$428.4 million of loans with an interest rate tied to the prime rate and approximately \$48.6 million of loans with an interest rate tied to either 1- or 3-month LIBOR at June 30, 2021. Unearned fees, net of deferred costs, related to the SBA PPP loans were \$1.2 million at June 30, 2021.

Interest expense on average interest-bearing liabilities was \$1.4 million, with an interest cost of 0.52%, for the second quarter of 2021, compared to \$1.7 million, with an interest cost of 0.59%, for the first quarter of 2021 and \$2.9 million, with an interest cost of 1.04%, for the second quarter of 2020. Interest expense declined \$1.5 million for the second quarter of 2021 compared to the second quarter of 2020 due primarily to the decline in interest rates paid on deposits as a direct result of the lower interest rate environment. The average cost of interest-bearing deposits was 0.50% for the second quarter of 2021, 0.57% for the first quarter of 2021 and 1.04% for the second quarter of 2020. The interest rates paid on deposits generally do not adjust quickly to rapid changes in market interest rates and decline over time in a falling interest rate environment. Management will continue to monitor and adjust the interest rates paid on deposits to reflect the then current interest rate environment and competitive factors.

The net interest margin on a tax-equivalent basis was 3.47% for the second quarter of 2021 compared to 3.64% for the second quarter of 2020. The net interest margin for the second quarter of 2021 was negatively impacted by the higher average balance of federal funds sold/short-term investments resulting from the \$155.5 million increase in total average deposits, the \$27.7 million decrease in average investments and the \$25.7 million decrease in average total loans from the second quarter of 2020. Interest income for the second quarter of 2021 included \$455,000 of fee income related to PPP loans that were forgiven and paid off by the SBA. Excluding the effect of the higher average balance of federal funds sold/short-term investments due primarily to the increase in average deposits, the net interest margin was approximately 3.81% for the second quarter of 2021.

### ***Six months ended June 30, 2021 compared to the six months ended June 30, 2020***

For the six months ended June 30, 2021, net interest income increased \$2.9 million, or 11.0%, to \$29.7 million compared to \$26.8 million for the six months ended June 30, 2020. Total interest income was \$32.8 million for the six months ended June 30, 2021 compared to \$33.1 million for the six months ended June 30, 2020. Despite an increase in average loans outstanding year over year, total interest income decreased due primarily to the lower yield on average interest-earning assets and the significant increase in federal funds sold/short-term investments with a low yield of 0.11%. Average interest-earning assets increased \$209.5 million to \$1.69 billion for the six months ended June 30, 2021 compared to \$1.48 billion for the same period in 2020. This increase was due primarily to a \$158.9 million increase in average federal funds sold/short-term investments and a \$72.2 million increase in average loans, partially offset by a \$21.6 million decrease in average total investment securities. The tax-equivalent yield on average interest earnings assets was 3.94% for the six months ended June 30, 2021 compared to 4.52% for the same period in the prior year. The decline of 58 basis points in tax-equivalent yield year over year was due primarily to the lower interest rate environment and the significant increase in federal funds sold/short-term investments, which had a low yield. The Federal Reserve reduced the targeted federal funds rate in March 2020 in response to the COVID-19 pandemic. As a result of the reductions in the targeted federal funds rate, the prime rate declined to 3.25% in March 2020 and was unchanged through the second quarter of 2021.

Interest expense on average interest-bearing liabilities was \$3.1 million, with an interest cost of 0.55%, for the six months ended June 30, 2021 compared to \$6.3 million, with an interest cost of 1.17%, for the same period in the prior year. The interest cost declined 62 basis points at June 30, 2021 compared to June 30, 2020 due primarily to lower market interest rates. Of the total increase in average interest-bearing liabilities of \$43.6 million, money market and NOW accounts increased \$53.1 million and savings accounts increased \$106.7 million, while certificates of deposit decreased \$87.1 million and short-term borrowings decreased \$29.1 million. Management will continue to monitor the interest rates paid on deposits and adjust them based on then current market conditions.

The net interest margin on a tax-equivalent basis was 3.57% for the six months ended June 30, 2021 compared to 3.66% for the six months ended June 30, 2020. The decline in the net interest margin year over year was a result of a lower market interest rate environment and the significant increase in federal funds sold/short-term investments.

### **Provision for Loan Losses**

Management considers a complete review of the following specific factors in determining the provisions for loan losses: historical losses by loan category, the level of non-accrual loans and problem loans as identified through internal review and classification, collateral values and the growth, size and risk elements of the loan portfolio. In addition to these factors, management takes into consideration current economic conditions and local real estate market conditions. As a result of the continuing economic and social disruption caused by the COVID-19 pandemic, in the second quarter of 2021 management reviewed construction, commercial business and commercial real estate loans that had been modified to defer interest and or principal for up to 90 days with a special emphasis on the hotel and restaurant-food service industries that have been adversely impacted by the economic disruption caused by the pandemic. Prior to March 2020, when the impacts of the COVID-19 pandemic began to be realized, the general economic environment in New Jersey and the New York City metropolitan area had been positive with stable and expanding economic activity, and the Company had generally experienced stable loan credit quality over the past five years.

#### ***Three months ended June 30, 2021 compared to three months ended June 30, 2020***

The Company recorded a provision for loan losses of \$600,000 for the second quarter of 2021 compared to a provision for loan losses of \$2.1 million for the second quarter of 2020. The provision for loan losses in the second quarter of 2021 reflected the decrease in the size of the loan portfolio, net charge-offs and changes in loan ratings, risk elements and mix of the loan portfolio at June 30, 2021. The higher provision for loan losses in the second quarter of 2020 reflected, in part, a \$1.6 million increase in qualitative loss factors related to the COVID-19 pandemic. Management determined that no adjustment to these qualitative factors was appropriate at June 30, 2021. At June 30, 2021, total loans were \$1.2 billion and the allowance for loan losses was \$16.9 million, or 1.37% of total loans, compared to total loans of \$1.4 billion and an allowance for loan losses of \$12.1 million, or 0.89% of total loans, at June 30, 2020. The allowance for loan losses, excluding the allocated reserve for mortgage warehouse lines, was \$15.8 million, or 1.59% of total loans excluding mortgage warehouse lines at June 30, 2021. In addition, at June 30, 2021, there were \$36.0 million of SBA PPP loans which are 100% guaranteed by the SBA and, accordingly, no allowance was provided.

#### ***Six months ended June 30, 2021 compared to six months ended June 30, 2020***

During the first six months of 2021, the Company recorded a provision for loan losses of \$2.0 million compared to a provision for loan losses of \$3.0 million for the first six months of 2020. The provision for loan losses for the 2020 period included an increase in the allowance for the estimated increase in incurred loan losses due primarily to the economic and social disruption caused by the COVID-19 pandemic and reflected charge-offs of \$165,000. The provision for loan losses for the first six months of 2021 reflected primarily a \$2.0 million increase in specific reserves on impaired loans, charge-offs of \$719,000 and recoveries of previously charged-off loans of \$3,000.

### **Non-Interest Income**

#### ***Three months ended June 30, 2021 compared to three months ended June 30, 2020***

Non-interest income was \$3.7 million for the second quarter of 2021, representing an increase of \$635,000, or 20.5%, compared to \$3.1 million for the second quarter of 2020. The increase in non-interest income was driven primarily by a \$645,000 increase in gain on sales of loans.

The Company originates and sells commercial loans guaranteed by the SBA and residential mortgage loans in the secondary market. In the second quarter of 2021, \$6.3 million of SBA loans were sold and gain on sales of loans of \$775,000 was recorded compared to no SBA loans originated or sold and no gain on sales of loans recorded in the second quarter of 2020. In the second quarter of 2021, residential mortgage banking operations originated \$60.3 million of residential mortgages, sold \$70.1 million of residential mortgages and recorded a \$2.0 million gain on sales of loans compared to \$76.0 million of residential mortgages originated, \$76.6 million of residential mortgage loans sold and a \$2.1 million gain on sales of loans recorded in the second quarter of 2020. Income from bank-owned life insurance ("BOLI") decreased \$96,000 for the second quarter of 2021 compared to the second quarter of 2020, which included \$75,000 of income from a death benefit. Other income increased \$119,000 in the second quarter of 2021 compared to the second quarter of 2020 due primarily to fees collected on expired loan commitments and higher interchange fees.

***Six months ended June 30, 2021 compared to six months ended June 30, 2020***

Total non-interest income for the six months ended June 30, 2021 increased \$2.3 million, or 40.6%, to \$7.8 million compared to total non-interest income of \$5.6 million for the six months ended June 30, 2020 due primarily to increases in gain on the sales of loans.

For the six months ended June 30, 2021, \$148.5 million of residential mortgages were originated and \$172.3 million of residential mortgages were sold, which generated gain on sales of loans of \$4.9 million, as compared to \$115.8 million of residential mortgages originated and \$110.6 million of residential mortgage sold, which generated gain on sales of loans of \$3.3 million, for the six months ended June 30, 2020. Management believes that the increase in residential mortgage loans originated and sold was due primarily to increased residential mortgage financing activity as a result of lower mortgage interest rates.

For the six months ended June 30, 2021, \$8.1 million of SBA loans were sold and gain on sales of loans of \$964,000 was recorded compared to \$2.7 million of SBA loans sold and gain on sales of loans of \$226,000 recorded for the six months ended June 30, 2020.

Service charges on deposit accounts decreased \$121,000 to \$224,000 for the six months ended June 30, 2021 from \$345,000 for the six months ended June 30, 2020, due primarily to lower overdraft fees.

For the six months ended June 30, 2021, income on BOLI decreased \$102,000 to \$342,000 compared to \$444,000 for the six months ended June 30, 2020, which included \$75,000 of income from a death benefit. Other income increased \$224,000 to \$1.4 million for the six months ended June 30, 2021 compared to \$1.2 million for the six months ended June 30, 2020, due primarily to recoveries on PCI loans in excess of the fair value of the acquired loan, fees collected on expired loan commitments and higher interchange fees.

In future periods, originations and sales of residential mortgages may decline due to a lower level of refinancing activity and or a lower level of residential home purchases resulting from the economic and social disruption caused by the COVID-19 pandemic. A decline in sales of residential mortgages would result in a lower gain on sales of loans and a decline of non-interest income. The future origination and sale of SBA loans may also be negatively affected by the pandemic.

## Non-Interest Expenses

For the three months ended June 30, 2021, non-interest expenses were \$10.5 million compared to \$9.8 million for the three months ended June 30, 2020, representing an increase of \$694,000, or 7.1%, due primarily to merger-related expenses of \$447,000 incurred in the second quarter of 2021 in connection with the pending Merger. Adjusted non-interest expenses, which excludes the \$447,000 of merger-related expenses, increased \$247,000, or 2.5%, compared to the second quarter of 2020.

The following table presents the major components of non-interest expenses for the three and six months ended June 30, 2021 and 2020:

(Dollars in thousands)	Three months ended June 30,		Six months ended June 30,	
	2021	2020	2021	2020
Salaries and employee benefits	\$ 6,459	\$ 6,001	\$ 13,411	\$ 12,170
Occupancy expense	1,161	1,205	2,472	2,375
Data processing expenses	505	470	996	916
Equipment expense	388	412	820	823
Marketing	32	34	57	78
Telephone	120	129	250	254
Regulatory, professional and consulting fees	452	497	1,045	961
Insurance	97	127	202	246
Supplies	50	111	111	208
FDIC insurance expense	155	225	425	259
Other real estate owned expenses	3	14	55	31
Merger-related expenses	447	—	447	64
Amortization of intangible assets	79	91	160	213
Other expenses	583	521	1,181	1,032
<b>Total</b>	<b>\$ 10,531</b>	<b>\$ 9,837</b>	<b>\$ 21,632</b>	<b>\$ 19,630</b>

### *Three months ended June 30, 2021 compared to three months ended June 30, 2020*

Salaries and employee benefits expense increased \$458,000 or 7.6%, for the second quarter of 2021 compared to the second quarter of 2020 due primarily to a \$118,000 increase in mortgage commissions, \$71,000 in temporary staffing costs and \$265,000 in lower deferred loan origination expenses.

FDIC insurance expense decreased \$70,000 due primarily to a decrease in the FDIC assessment rate in the second quarter of 2021 compared to the assessment rate in the second quarter of 2020.

Merger-related expenses of \$447,000 were incurred in the second quarter of 2021 for legal and other expenses incurred in connection with the pending Merger compared to no merger-related expenses in the second quarter of 2020.

Non-interest expenses may increase, if there is a significant increase in non-performing loans, as a result of higher expenses incurred in connection with loan collection and recovery costs. In addition, FDIC insurance expense may increase if the Bank's financial condition is adversely impacted by a higher level of non-performing loans and assets.

### *Six months ended June 30, 2021 compared to six months ended June 30, 2020*

Non-interest expenses were \$21.6 million for the six months ended June 30, 2021 compared to \$19.6 million for the six months ended June 30, 2020, representing an increase of \$2.0 million, or 10.2%, due primarily to a \$847,000 increase in commissions related to the origination of residential mortgages for sale and \$447,000 in merger-related expenses in connection with the pending Merger.

Salaries and employee benefits, which represent the largest portion of non-interest expenses, increased \$1.2 million, or 10.2%, to \$13.4 million for the six months ended June 30, 2021 compared to \$12.2 million for the six months ended June 30, 2020, due primarily to higher commissions expense of \$847,000 related to the origination of residential mortgage loans primarily for sale, \$147,000 in temporary staffing costs, merit increases and increases in employee benefit expenses.

Occupancy expense increased \$97,000 to \$2.5 million for the six months ended June 30, 2021 compared \$2.4 million for the six months ended June 30, 2020, due primarily to higher snow removal costs in the first quarter of 2021.

Regulatory, professional and consulting fees increased \$84,000 to \$1.0 for the six months ended June 30, 2021 compared to \$961,000 for the six months ended June 30, 2020, due primarily to an increase in legal services related to loan collections and workouts.

Supplies expense decreased \$97,000 to \$111,000 for the six months ended June 30, 2021 compared to \$208,000 for the six months ended June 30, 2020, due in part to the purchase of a larger amount of COVID-19-related protective supplies in 2020 than in the comparable period in 2021.

FDIC insurance expense increased \$166,000 to \$425,000 for the six months ended June 30, 2021 compared to \$259,000 for the six months ended June 30, 2020, due primarily to a \$123,000 credit received from the FDIC in the first quarter of 2020.

Merger-related expenses were \$447,000 for the six months ended June 30, 2021 compared to \$64,000 for the six months ended June 30, 2020, reflecting the legal and other expenses incurred in connection with the pending Merger and the acquisition of Shore Community Bank, respectively.

Other expenses increased \$85,000 to \$1.2 million for the six months ended June 30, 2021 compared to \$1.1 million for the six months ended June 30, 2020, due primarily to general increases in various other operating expense categories year over year.

## **Income Taxes**

### ***Three months ended June 30, 2021 compared to three months ended June 30, 2020***

Income tax expense was \$1.9 million for the second quarter of 2021, resulting in an effective tax rate of 26.9%, compared to income tax expense of \$1.3 million, which resulted in an effective tax rate of 26.0% for the second quarter of 2020. The increase in income tax expense was due primarily to a \$2.1 million increase in pre-tax income in the second quarter of 2021 compared to the second quarter of 2020. The higher effective tax rate in the second quarter of 2021 reflected primarily the higher New Jersey statutory tax rate in effect compared to the statutory tax rate in effect in the second quarter of 2020.

### ***Six months ended June 30, 2021 compared to six months ended June 30, 2020***

Income tax expense was \$3.8 million for the six months ended June 30, 2021, resulting in an effective tax rate of 27.5%, compared to income tax expense of \$2.6 million, which resulted in an effective tax rate of 26.6% for the six months ended June 30, 2020. The increase in income tax expense was due primarily to a of \$4.2 million increase in pre-tax income in the first six months of 2021 compared to the first six months of 2020. The higher effective tax rate in the first six months of 2021 reflected the higher New Jersey statutory tax rate in effect compared to the New Jersey statutory tax rate in effect for the first six months of 2020.

## **FINANCIAL CONDITION**

### ***June 30, 2021 compared to December 31, 2020***

Total consolidated assets were \$1.79 billion at June 30, 2021, relatively unchanged from December 31, 2020. Total cash and cash equivalents increased \$193.7 million and total investment securities increased \$11.1 million, which amounts were offset by decreases of \$198.3 million in total portfolio loans and \$23.8 million in loans held for sale.

### **Cash and Cash Equivalents**

Cash and cash equivalents totaled \$215.7 million at June 30, 2021 compared to \$22.0 million at December 31, 2020, representing an increase of \$193.7 million. The increase in cash and cash equivalents reflects an increase in interest-earning deposits due primarily to the cash flows resulting from a decline in total portfolio loans.

### **Loans Held for Sale**

Loans held for sale were \$6.0 million at June 30, 2021 compared to \$29.8 million at December 31, 2020, representing a decrease of \$23.8 million due primarily to loan sales in excess of loan originations. The amount of loans held for sale varies from period to period due to changes in the amount and timing of sales of residential mortgage loans and SBA guaranteed commercial loans.

## Investment Securities

Investment securities represented approximately 12.8% of total assets at June 30, 2021 and approximately 12.1% of total assets at December 31, 2020. Total investment securities increased \$11.1 million to \$228.8 million at June 30, 2021 from \$217.7 million at December 31, 2020. Purchases of investment securities totaled \$56.4 million during the six months ended June 30, 2021 and proceeds from calls, maturities and payments totaled \$44.0 million during this same period.

Securities available for sale are investments that may be sold in response to changing market and interest rate conditions or for other business purposes. Activity in this portfolio is undertaken primarily to manage liquidity and interest rate risk and to take advantage of market conditions that create economically attractive returns. At June 30, 2021, securities available for sale were \$130.9 million, representing an increase of \$5.7 million from securities available for sale of \$125.2 million at December 31, 2020.

At June 30, 2021, the securities available for sale portfolio had net unrealized gains of \$2.0 million compared to net unrealized gains of \$2.6 million at December 31, 2020. These net unrealized gains were reflected, net of tax, in shareholders' equity as a component of accumulated other comprehensive income (loss).

Securities held to maturity, which are carried at amortized historical cost, are investments for which there is the positive intent and ability to hold to maturity. At June 30, 2021, securities held to maturity were \$98.0 million, representing an increase of \$5.4 million from \$92.6 million at December 31, 2020. The fair value of the held to maturity portfolio was \$100.8 million and represented a net unrealized gain of \$2.8 million at June 30, 2021.

## Loans

The loan portfolio, which represents the Company's largest asset, is a significant source of both interest and fee income. Elements of the loan portfolio are subject to differing levels of credit and interest rate risk. The Company's primary lending focus continues to be the financing of mortgage warehouse lines, construction loans, commercial business loans, owner-occupied commercial mortgage loans and commercial real estate loans on income-producing assets.

The following table represents the components of the loan portfolio at June 30, 2021 and December 31, 2020:

(Dollars in thousands)	June 30, 2021		December 31, 2020	
	Amount	%	Amount	%
Commercial real estate	\$ 615,632	50 %	\$ 618,978	43 %
Mortgage warehouse lines	241,827	19	388,366	27
Construction	131,270	11	129,245	9
Commercial business	160,056	13	188,728	13
Residential real estate	68,487	5	88,261	6
Loans to individuals	19,353	2	21,269	2
Other loans	104	—	113	—
Total loans	1,236,729	100 %	1,434,960	100 %
Deferred loan fees, net	(1,287)		(1,254)	
Total loans, including deferred loan fees, net	\$ 1,235,442		\$ 1,433,706	

Total portfolio loans at June 30, 2021 were \$1.24 billion, compared to \$1.43 billion at December 31, 2020. The \$198.3 million decrease in portfolio loans was due primarily to a decrease of \$146.5 million in mortgage warehouse lines, a decrease of \$28.7 million in commercial business loans and a decrease of \$19.8 million in residential real estate loans, and was partially offset by a \$2.0 million increase in construction loans.

Commercial real estate loans totaled \$615.6 million at June 30, 2021 compared to \$619.0 million at December 31, 2020. Commercial real estate loans consist primarily of loans to businesses that are collateralized by real estate assets employed in the operation of the business and loans to real estate investors to finance the acquisition and/or improvement of income-producing commercial properties.

The Bank's mortgage warehouse funding group provides revolving lines of credit that are available to licensed mortgage banking companies. The warehouse line of credit is used by the mortgage banker to finance the origination of one-to-four family residential mortgage loans that are pre-sold to the secondary mortgage market, which includes state and national banks, national mortgage banking firms, insurance companies and government-sponsored enterprises, including the Federal National Mortgage Association,

the Federal Home Loan Mortgage Corporation and the Government National Mortgage Association. On average, an advance under the warehouse line of credit remains outstanding for a period of less than 30 days, with repayment coming directly from the sale of the loan into the secondary mortgage market. The Bank collects interest and a transaction fee at the time of repayment. Mortgage warehouse loans totaled \$241.8 million at June 30, 2021 compared to \$388.4 million at December 31, 2020. The decline was due primarily to a lower mortgage funding volume in the second quarter of 2021 compared to the fourth quarter of 2020. In the first six months of 2021, \$2.5 billion of residential mortgage loans were financed through the mortgage warehouse funding group compared to \$2.0 billion during the first six months of 2020. The higher level of funding activity was due primarily to the lower mortgage interest rate environment that began in March 2020 and persisted through the first six months of 2021, which resulted in an increase in refinancing activity.

Construction loans totaled \$131.3 million at June 30, 2021 compared to \$129.2 million at December 31, 2020. Construction financing is provided to businesses to expand their facilities and operations and to real estate developers for the acquisition, development and construction of residential properties and income-producing properties. First mortgage construction loans are made to developers and builders for single family homes or multi-family buildings that are pre-sold or are to be sold or leased on a speculative basis. The Bank lends to developers and builders with established relationships, successful operating histories and sound financial resources. In many cases the Bank also provides the mortgage loan to the customer upon completion of the project.

Commercial business loans totaled \$160.1 million at June 30, 2021 compared to \$188.7 million at December 31, 2020 and declined \$28.7 million primarily as a result of the forgiveness and pay-offs of the SBA PPP loans. As a SBA preferred lender, the Bank participated in both rounds of the SBA PPP loan program and had \$36.0 million in SBA PPP loans outstanding at June 30, 2021. Commercial business loans consist primarily of loans to small and middle market businesses and are typically working capital loans used to finance inventory, receivables or equipment needs. These loans are generally secured by business assets of the commercial borrower.

Residential real estate loans totaled \$68.5 million at June 30, 2021 compared to \$88.3 million at December 31, 2020 and declined \$19.8 million due primarily to pay-offs. Loans to individuals, which are comprised primarily of home equity loans, totaled \$19.4 million at June 30, 2021 compared to \$21.3 million at December 31, 2020.

The ability of the Company to enter into larger loan relationships and management's philosophy of relationship banking are key factors in the Company's strategy for loan growth. The ultimate collectability of the loan portfolio and recovery of the carrying amount of real estate are subject to changes in the economic environment and real estate market in the Company's primary market area of northern and central New Jersey, communities along the New Jersey shore and the New York City metropolitan area.

If the economic disruption caused by the COVID-19 pandemic continues for an extended period of time, the Company may experience a decline in the origination of new loans and total loans could decline.

### **Non-Performing Assets**

Non-performing assets consist of non-performing loans and other real estate owned. Non-performing loans are composed of (1) loans on non-accrual basis and (2) loans which are contractually past due 90 days or more as to interest and principal payments but which have not been classified as non-accrual. Included in non-accrual loans are loans, the terms of which have been restructured to provide a reduction or deferral of interest and/or principal because of deterioration in the financial position of the borrower and have not performed in accordance with the restructured terms. Loan payments that are deferred due to the COVID-19 pandemic continue to accrue interest and are not presented as past due in the table below.

The Bank's policy with regard to non-accrual loans is that, generally, loans are placed on non-accrual status when they are 90 days past due, unless these loans are well secured and in process of collection or, regardless of the past due status of the loan, when management determines that the complete recovery of principal or interest is in doubt. Consumer loans are generally charged off after they become 120 days past due. Subsequent payments on loans in non-accrual status are credited to income only if collection of principal is not in doubt.

At June 30, 2021, non-performing loans decreased by \$5.2 million to \$12.1 million from \$17.2 million at December 31, 2020, and the ratio of non-performing loans to total loans decreased to 0.98% at June 30, 2021 compared to 1.20% at December 31, 2020. During the six months ended June 30, 2021, \$5.0 million of non-performing loans were resolved as a result of pay-downs, pay-offs and charge-offs. Hotel loans totaling \$2.6 million and purchased credit impaired loans totaling \$782,000 were repaid. For the six months ended June 30, 2021, \$1.2 million of loans were placed on non-accrual status and consisted of a \$94,000 home equity loan, an \$871,000 residential mortgage loan and a \$216,000 construction loan.

Non-accrual loans consist of construction, commercial business, commercial real estate and residential real estate loans, which are in the process of collection. The table below sets forth non-performing assets and risk elements in the Bank's portfolio at the dates indicated.

(Dollars in thousands)	June 30, 2021	December 31, 2020
<b>Non-performing loans:</b>		
Loans 90 days or more past due and still accruing	\$ —	\$ 871
Non-accrual loans	12,054	16,361
Total non-performing loans	12,054	17,232
Other real estate owned	48	92
Total non-performing assets	12,102	17,324
Performing troubled debt restructurings	5,296	5,768
Performing troubled debt restructurings and total non-performing assets	<u>\$ 17,398</u>	<u>\$ 23,092</u>
Non-performing loans to total loans	0.98 %	1.20 %
Non-performing loans to total loans excluding mortgage warehouse lines	1.21 %	1.65 %
Non-performing assets to total assets	0.68 %	0.96 %
Non-performing assets to total assets excluding mortgage warehouse lines	0.78 %	1.22 %
Total non-performing assets and performing troubled debt restructurings to total assets	0.97 %	1.28 %

Non-performing assets decreased by \$5.2 million to \$12.1 million at June 30, 2021 from \$17.3 million at December 31, 2020. OREO totaled \$48,000 at June 30, 2021 compared to \$92,000 at December 31, 2020. OREO at June 30, 2021 was comprised of one parcel of land.

At June 30, 2021, the Bank had 8 loans totaling \$5.4 million that were troubled debt restructurings. Two of these loans totaling \$127,000 are included in the above table as non-accrual loans and the remaining seven loans totaling approximately \$5.3 million were performing. At December 31, 2020, the Bank had 10 loans totaling \$5.9 million that were troubled debt restructurings. Two of these loans totaling \$141,000 are included in the above table as non-accrual loans and the remaining eight loans totaling approximately \$5.8 million were performing.

In accordance with U.S. GAAP, the excess of cash flows expected at acquisition over the initial investment in the purchase of a credit impaired loan is recognized as interest income over the life of the loan. At June 30, 2021, there were 3 loans acquired with evidence of deteriorated credit quality totaling \$542,000 that were not classified as non-performing loans. At December 31, 2020, there were 5 loans acquired with evidence of deteriorated credit quality totaling \$2.4 million that were not classified as non-performing loans.

Management takes a proactive approach in addressing delinquent loans. The Company's President and Chief Executive Officer meets weekly with all loan officers to review the status of credits past due 10 days or more. An action plan is discussed for delinquent loans to determine the steps necessary to induce the borrower to cure the delinquency and restore the loan to a current status. In addition, delinquency notices are system-generated when loans are five days past due and again at 15 days past due.

In most cases, the Company's collateral is real estate. If the collateral is foreclosed upon, the real estate is carried at fair market value less the estimated selling costs. The amount, if any, by which the recorded amount of the loan exceeds the fair market value of the collateral, less estimated selling costs, is a loss that is charged to the allowance for loan losses at the time of foreclosure or repossession. Resolution of a past-due loan through foreclosure can be delayed if the borrower files a bankruptcy petition because a collection action cannot be continued unless the Company first obtains relief from the automatic stay provided by the United States Bankruptcy Reform Act of 1978, as amended.

#### **Allowance for Loan Losses and Related Provision**

The allowance for loan losses is maintained at a level sufficient to absorb estimated credit losses in the loan portfolio as of the date of the financial statements. The allowance for loan losses is a valuation reserve available for losses incurred or inherent in the loan portfolio and other extensions of credit. The determination of the adequacy of the allowance for loan losses is a critical accounting policy of the Company.

The Company's primary lending emphasis is the origination of commercial business, construction and commercial real estate loans and mortgage warehouse lines of credit. Based on the composition of the loan portfolio, the inherent primary risks are deteriorating credit quality, a decline in the economy and a decline in New Jersey and New York City metropolitan area real estate market values. Any one, or a combination, of these events may adversely affect the loan portfolio and may result in increased delinquencies, loan losses and increased future provision levels.

Due to the economic disruption and uncertainty caused by the COVID-19 pandemic, the allowance for loan losses may increase in future periods as borrowers are affected by the severe contraction of economic activity and the increase in unemployment. This may result in increases in loan delinquencies, downgrades of loan credit ratings and charge-offs in future periods. The allowance for loan losses may increase significantly to reflect the decline in the performance of the loan portfolio and the higher level of estimated incurred losses.

All, or part, of the principal balance of commercial business and commercial real estate loans and construction loans are charged off against the allowance as soon as it is determined that the repayment of all, or part, of the principal balance is highly unlikely. Consumer loans are generally charged off no later than 120 days past due on a contractual basis, earlier in the event of bankruptcy, or if there is an amount deemed uncollectible. Because all identified losses are charged off, no portion of the allowance for loan losses is restricted to any individual loan or groups of loans and the entire allowance is available to absorb any and all loan losses.

Management reviews the adequacy of the allowance on at least a quarterly basis to ensure that the provision for loan losses has been charged against earnings in an amount necessary to maintain the allowance at a level that is adequate based on management's assessment of probable estimated losses. The Company's methodology for assessing the adequacy of the allowance for loan losses consists of several key elements and is consistent with U.S. GAAP and interagency supervisory guidance. The allowance for loan losses methodology consists of two major components. The first component is an estimation of losses associated with individually identified impaired loans, which follows ASC Topic 310. The second major component is an estimation of losses under ASC Topic 450, which provides guidance for estimating losses on groups of loans with similar risk characteristics. The Company's methodology results in an allowance for loan losses that includes a specific reserve for impaired loans, an allocated reserve and an unallocated portion.

When analyzing groups of loans, the Company follows the Interagency Policy Statement on the Allowance for Loan and Lease Losses. The methodology considers the Company's historical loss experience adjusted for changes in trends, conditions and other relevant factors that affect repayment of the loans as of the evaluation date. These adjustment factors, known as qualitative factors, include:

- Delinquencies and non-accruals;
- Portfolio quality;
- Concentration of credit;
- Trends in volume of loans;
- Quality of collateral;
- Policy and procedures;
- Experience, ability and depth of management;
- Economic trends - national and local; and
- External factors - competition, legal and regulatory.

The methodology includes the segregation of the loan portfolio into loan types with a further segregation into risk rating categories, such as special mention, substandard, doubtful and loss. This allows for an allocation of the allowance for loan losses by loan type; however, the allowance is available to absorb any loan loss without restriction. Larger-balance, non-homogeneous loans representing significant individual credit exposures are evaluated individually through the internal loan review process. This process produces the watch list. The borrower's overall financial condition, repayment sources, guarantors and value of collateral, if appropriate, are evaluated. Based on this evaluation, an estimate of probable losses for the individual larger-balance loans is determined, whenever possible, and used to establish specific loan loss reserves. In general, for non-homogeneous loans not individually assessed and for homogeneous groups of loans, such as residential mortgages and consumer credits, the loans are collectively evaluated based on delinquency status, loan type and historical losses. These loan groups are then internally risk rated.

The watch list includes loans that are assigned a rating of special mention, substandard, doubtful and loss. Loans classified as special mention have potential weaknesses that deserve management's close attention. If uncorrected, the potential weaknesses may result in deterioration of the repayment prospects. Loans classified as substandard have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They include loans that are inadequately protected by the current net worth and paying

capacity of the obligor or of the collateral pledged, if any. Loans classified as doubtful have all the weaknesses inherent in loans classified as substandard with the added characteristic that collection or liquidation in full, on the basis of current conditions and facts, is highly improbable. Loans rated as doubtful are placed in non-accrual status. Loans classified as a loss are considered uncollectible and are charged-off against the allowance for loan losses.

The specific allowance for impaired loans is established for specific loans that have been identified by management as being impaired. These loans are considered to be impaired primarily because the loans have not performed according to payment terms and there is reason to believe that repayment of the loan principal in whole, or in part, is unlikely. The specific portion of the allowance is the total amount of potential unconfirmed losses for these individual impaired loans. To assist in determining the fair value of loan collateral, the Company often utilizes independent third-party qualified appraisal firms, which employ their own criteria and assumptions that may include occupancy rates, rental rates and property expenses, among others.

The second category of reserves consists of the allocated portion of the allowance. The allocated portion of the allowance is determined by taking pools of outstanding loans that have similar characteristics and applying historical loss experience for each pool. This estimate represents the potential unconfirmed losses within the portfolio. Individual loan pools are created for commercial business loans, commercial real estate loans, construction loans, warehouse lines of credit and various types of loans to individuals. The historical estimation for each loan pool is then adjusted to account for current conditions, current loan portfolio performance, loan policy or management changes or any other qualitative factor that management believes may cause future losses to deviate from historical levels.

The Company also maintains an unallocated allowance. The unallocated allowance is used to cover any factors or conditions that may cause a potential loan loss but are not specifically identifiable. It is prudent to maintain an unallocated portion of the allowance because no matter how detailed an analysis of potential loan losses is performed, these estimates, by definition, lack precision. Management must make estimates using assumptions and information that is often subjective and changing rapidly. The following discusses the risk characteristics of each of our loan portfolios.

#### Commercial Business

The Company offers a variety of commercial loan services, including term loans, lines of credit and loans secured by equipment and receivables. A broad range of short-to-medium term commercial loans, both secured and unsecured, are made available to businesses for working capital (including inventory and receivables), business expansion (including acquisition and development of real estate and improvements) and the purchase of equipment and machinery. Commercial business loans are granted based on the borrower's ability to generate cash flow to support its debt obligations and other cash related expenses. A borrower's ability to repay commercial business loans is substantially dependent on the success of the business itself and on the quality of its management. As a general practice, the Company takes, as collateral, a security interest in any available real estate, equipment, inventory, receivables or other personal property of its borrowers, although the Company occasionally makes commercial business loans on an unsecured basis. Generally, the Company requires personal guarantees of its commercial business loans to offset the risks associated with such loans. Included in the commercial business loans are SBA PPP loans, which are fully guaranteed by the SBA and are therefore excluded from the allowance for loan losses.

Much of the Company's lending is in northern and central New Jersey, communities along the New Jersey shore, and the New York City metropolitan area. As a result of this geographic concentration, a significant broad-based deterioration in economic conditions in New Jersey and the New York City metropolitan area could have a material adverse impact on the Company's loan portfolio. A prolonged decline in economic conditions in our market area could restrict borrowers' ability to pay outstanding principal and interest on loans when due. The value of assets pledged as collateral may decline and the proceeds from the sale or liquidation of these assets may not be sufficient to repay the loan.

#### Commercial Real Estate

Commercial real estate loans are made to businesses to expand their facilities and operations and to real estate operators to finance the acquisition of income producing properties. The Company's loan policy requires that borrowers have sufficient cash flow to meet the debt service requirements and the value of the property meets the loan-to-value criteria set in the loan policy. The Company monitors loan concentrations by borrower, by type of property and by location and other criteria.

The Company's commercial real estate portfolio is largely secured by real estate collateral located in New Jersey and the New York City metropolitan area. Conditions in the real estate markets in which the collateral for the Company's loans are located strongly influence the level of the Company's non-performing loans. A decline in the New Jersey and New York City metropolitan area real estate markets could adversely affect the Company's loan portfolio. Decreases in local real estate values would adversely affect the

value of property used as collateral for the Company's loans. Adverse changes in the economy also may have a negative effect on the ability of our borrowers to make timely repayments of their loans.

### Construction Financing

Construction financing is provided to businesses to expand their facilities and operations and to real estate developers for the acquisition, development and construction of residential and commercial properties. First mortgage construction loans are made to developers and builders primarily for single family homes and multi-family buildings that are presold or are to be sold or leased on a speculative basis.

The Company lends to builders and developers with established relationships, successful operating histories and sound financial resources. Management has established underwriting and monitoring criteria to minimize the inherent risks of real estate construction lending. The risks associated with speculative construction lending include the borrower's inability to complete the construction process on time and within budget, the sale or rental of the project within projected absorption periods and the economic risks associated with real estate collateral. Such loans may include financing the development and/or construction of residential subdivisions. This activity may involve financing land purchases and infrastructure development (such as roads, utilities, etc.), as well as construction of residences or multi-family dwellings for subsequent sale by the developer/builder. Because the sale or rental of developed properties is integral to the success of developer business, loan repayment may be especially subject to the volatility of real estate market values.

### Mortgage Warehouse Lines of Credit

The Company's Mortgage Warehouse Funding Group provides revolving lines of credit that are available to licensed mortgage banking companies. The warehouse line of credit is used by the mortgage banker to originate one-to-four family residential mortgage loans that are pre-sold to the secondary mortgage market, which includes state and national banks, national mortgage banking firms, insurance companies and government-sponsored enterprises, including the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation, the Government National Mortgage Association and others. On average, an advance under the warehouse line of credit remains outstanding for a period of less than 30 days, with repayment coming directly from the sale of the loan into the secondary mortgage market. Interest and a transaction fee are collected by the Bank at the time of repayment.

As a separate class of the total loan portfolio, the warehouse loan portfolio is analyzed as a whole for the purposes of allowance for loan losses. Warehouse lines of credit are subject to the same inherent risks as other commercial lending, but the overall degree of risk differs. While the Company's loss experience with this type of lending has been non-existent since the product was introduced in 2008, there are other risks unique to this lending that still must be considered in assessing the adequacy of the allowance for loan losses. These unique risks may include, but are not limited to, (i) credit risks relating to the mortgage bankers that borrow from us, (ii) the risk of intentional misrepresentation or fraud by any of such mortgage bankers, (iii) changes in the market value of mortgage loans originated by the mortgage banker, the sale of which is the expected source of repayment of the borrowings under a warehouse line of credit, due to changes in interest rates during the time in warehouse or (iv) unsalable or impaired mortgage loans so originated, which could lead to decreased collateral value and the failure of a purchaser of the mortgage loan to purchase the loan from the mortgage banker.

### Consumer

The Company's consumer loan portfolio is comprised of residential real estate loans, home equity loans and other loans to individuals. Individual loan pools are created for the various types of loans to individuals. The principal risk is the borrower becomes unemployed or has a significant reduction in income.

In general, for homogeneous groups such as residential mortgages and consumer credits, the loans are collectively evaluated based on delinquency status, loan type and historical losses. These loan groups are then internally risk rated.

The Company considers the following credit quality indicators in assessing the risk in the loan portfolio:

- Consumer credit scores;
- Internal credit risk grades;
- Loan-to-value ratios;
- Collateral; and
- Collection experience.

The following table presents, for the periods indicated, an analysis of the allowance for loan losses and other related data:

(Dollars in thousands)	Six Months Ended June 30, 2021	Year Ended December 31, 2020	Six Months Ended June 30, 2020
Balance, beginning of period	\$ 15,641	\$ 9,271	\$ 9,271
Provision charged to operating expenses	2,000	6,698	3,020

Subtotal	15,090	1.52 %	81 %	13,634	1.30 %	73 %
Mortgage warehouse lines	1,088	0.45 %	19 %	1,807	0.47 %	27 %
Unallocated reserves	747	—	—	200	—	—
Total	\$ 16,925	1.37 %	100 %	\$ 15,641	1.09 %	100 %

For the six months ended June 30, 2021, the Company recorded a provision for loan losses of \$2.0 million, and net charge-offs of \$716,000 compared to a provision for loan losses of \$3.0 million, and net charge-offs of \$165,000 recorded for the first six months of 2020. The higher provision for loan losses recorded for the first six months of 2020 was due primarily to an increase in the allowance for the estimated increase in incurred losses resulting from economic and social disruption caused by the COVID-19 pandemic.

As part of the review of the adequacy of the allowance for loan losses at June 30, 2021, management reviewed substantially all of the \$132.1 million of commercial business and commercial real estate loans that had been modified to defer interest and or principal for up to 90 days in 2020 and 2021. Loans with balances of less than \$250,000 were generally excluded from management's review.

At June 30, 2021, the allowance for loan losses included \$414,000 for loans that were rated Pass-Watch and had received a deferral. This reflects management's previously reported determination that "Pass-Watch" credit rated loans with modifications or deferrals suggest a weaker financial strength of the borrower than "Pass" credit rated loans, thereby warranting an additional allowance for loan losses than would ordinarily be reserved for "Pass-Watch" credit rated loans.

Within the loan portfolio, hotel and restaurant-food service industries have been adversely impacted by the economic disruption caused by the COVID-19 pandemic. At June 30, 2021, loans to borrowers in the hotel and restaurant-food service industries were \$65.2 million and \$61.6 million, respectively. Management reviewed over 92% of the hotel loans and over 96% of the restaurant-food service loans. At June 30, 2021, management continued to maintain the additional allowance for loan losses of 75 basis points, or \$372,000, attributable to restaurant-food service loans and 25 basis points, or \$155,000, attributable to hotel loans due to the challenging operating environment for these businesses as a result of the COVID-19 pandemic.

All construction loans are closely monitored on a quarterly basis and are reviewed to assess the progress of construction relative to the plan and budget and lease-up or sales of units. As part of this review, a specific reserve for construction loans was increased by \$1.7 million in the first quarter of 2021.

Management also reviewed loans to schools that are private educational institutions that are generally sponsored or affiliated with religious organizations. These loans totaled \$25.7 million at June 30, 2021, and 96% of these loans were reviewed.

At June 30, 2021, the allowance for loan losses was \$16.9 million, or 1.37% of loans, compared to \$15.6 million, or 1.09% of loans, at December 31, 2020 and \$12.1 million, or 0.89% of loans, at June 30, 2020. The allowance for loan losses was 140.41% of non-performing loans at June 30, 2021 compared to 90.77% of non-performing loans at December 31, 2020 and 89.70% of non-performing loans at June 30, 2020. The allowance for loan losses at June 30, 2021 included \$1.5 million of allowance that was attributable to management's qualitative factors related to the COVID-19 pandemic and specific reserves of \$3.5 million for impaired loans.

Acquisition accounting for the merger with Shore Community Bank ("Shore") in 2019 and the merger with New Jersey Community Bank ("NJCB") in 2018 resulted in the Shore and NJCB loans being recorded at their fair value and no allowance for loan losses as of the effective time of the respective mergers. The unaccreted general credit fair value discounts related to the former Shore and NJCB loans were approximately \$1.2 million and \$359,000 at June 30, 2021, respectively. In addition, at June 30, 2021, there were \$36.0 million of SBA PPP loans which are 100% guaranteed by the SBA and, accordingly, no allowance was provided.

Management believes that the allowance for loan losses is adequate in relation to credit risk exposure levels and the estimated incurred and inherent losses in the loan portfolio at June 30, 2021. However, management expects that the economic disruption resulting from the COVID-19 pandemic will continue to impact businesses, borrowers, employees and consumers in the near term, notwithstanding the wider distribution and availability of vaccines, as uncertainty remains with respect to variants of the virus and the potential reimplementing of certain restrictions and precautionary measures in the Bank's primary market areas. Management may further increase the provision for loan losses and the allowance for loan losses in response to changes in economic conditions and the performance of the loan portfolio in future periods.

## **Deposits**

Deposits, which include demand deposits (interest bearing and non-interest bearing), savings deposits and time deposits, are a fundamental and cost-effective source of funding. The flow of deposits is influenced significantly by general economic conditions, changes in market interest rates and competition. The Company offers a variety of products designed to attract and retain customers, with the Company's primary focus on the building and expanding of long-term relationships.

The following table summarizes deposits at June 30, 2021 and December 31, 2020:

(Dollars in thousands)	June 30, 2021	December 31, 2020
<b>Demand</b>		
Non-interest bearing	\$ 489,302	\$ 425,210
Interest bearing	469,437	441,772
Savings	412,687	334,226
Certificates of deposit	174,635	361,631
Total	<u>\$ 1,546,061</u>	<u>\$ 1,562,839</u>

Total deposits were \$1.5 billion at June 30, 2021, relatively unchanged from December 31, 2020. However, there was a significant change in the composition of deposits as non-interest-bearing demand deposits increased \$64.1 million due in part to the funding of the second round of SBA PPP loans. Certificates of deposit decreased \$187.0 million primarily due primarily to the maturity of approximately \$147.2 million of short-term internet listing service certificates of deposit that were not renewed. Due to the low interest rate environment, customers generally chose to deposit funds to non-maturity deposit accounts such as NOW and savings accounts, which resulted in a \$78.5 million increase in savings deposits and a \$27.7 million increase in interest-bearing demand deposits.

The COVID-19 pandemic may impact the Bank's ability to increase and or retain customers' deposits. As the pandemic continues, businesses may experience a loss of revenue and consumers may experience a reduction of income, which may in turn cause them to withdraw their funds to pay expenses or reduce their ability to increase their deposits.

### **Borrowings**

Borrowings are mainly comprised of Federal Home Loan Bank of New York ("FHLB") borrowings and overnight funds purchased. These borrowings are primarily used to fund asset growth not supported by deposit generation. At June 30, 2021, the Company had no borrowings compared to \$9.8 million of short-term borrowings December 31, 2020.

### **Liquidity**

At June 30, 2021, the amount of liquid assets and the Bank's access to off-balance sheet liquidity remained at a level management deemed adequate to ensure that contractual liabilities, depositors' withdrawal requirements and other operational and customer credit needs could be satisfied.

Liquidity management refers to the Company's ability to support asset growth while satisfying the borrowing needs and deposit withdrawal requirements of customers. In addition to maintaining liquid assets, factors such as capital position, profitability, asset quality and availability of funding affect a bank's ability to meet its liquidity needs. On the asset side, liquid funds are maintained in the form of cash and cash equivalents, federal funds sold, investment securities held to maturity maturing within one year, securities available for sale and loans held for sale. Additional asset-based liquidity is derived from scheduled loan repayments as well as investment repayments of principal and interest. Investment securities and loans may also be pledged to the FHLB to collateralize additional borrowings. On the liability side, the primary source of liquidity is the ability to generate core deposits. Long-term and short-term borrowings are used as supplemental funding sources when growth in the core deposit base does not keep pace with that of interest-earning assets.

The Bank has established a borrowing relationship with the FHLB that further supports and enhances liquidity. The FHLB provides member banks with a fully secured line of credit of up to 50% of a bank's quarter-end total assets. Under the terms of this facility, the Bank's total credit exposure to the FHLB cannot exceed 50% of its total assets, or \$894.6 million, at June 30, 2021. In addition, the aggregate outstanding principal amount of the Bank's advances, letters of credit, the dollar amount of the FHLB's minimum collateral requirement for off-balance sheet financial contracts and advance commitments cannot exceed 30% of the Bank's total assets, unless the Bank obtains approval from the FHLB's Board of Directors or its Executive Committee. These limits are further restricted by a member's ability to provide eligible collateral to support its obligations to the FHLB as well as the ability to meet the FHLB's stock requirement. At June 30, 2021 and December 31, 2020, the Bank pledged approximately \$350.9 million and \$469.5 million of loans, respectively, to support the FHLB borrowing capacity. At June 30, 2021 and December 31, 2020, the Bank had available borrowing capacity of \$247.6 million and \$301.8 million, respectively, at the FHLB. The Bank also maintains unsecured federal funds lines of \$46.0 million with two correspondent banks, all of which were unused and available at June 30, 2021.

The Bank has access to the Federal Reserve Bank of New York Discount Window facility. At this time the Bank has not pledged investment securities or loans, which would be required, to support borrowings through the Discount Window facility.

The Consolidated Statements of Cash Flows present the changes in cash from operating, investing and financing activities. At June 30, 2021, the balance of cash and cash equivalents was \$215.7 million.

Net cash provided by operating activities totaled \$36.9 million for the six months ended June 30, 2021 compared to net cash provided by operating activities of \$6.2 million for the six months ended June 30, 2020. A source of funds is net income from operations adjusted for activity related to loans originated for sale and sold, the provision for loan losses, depreciation and amortization expenses and net amortization of premiums and discounts on securities. The increase in cash provided by operating activities for the six months ended June 30, 2021 compared to the six months ended June 30, 2020 was due primarily to the net sales (cash provided) of loans held for sale of approximately \$29.6 million and the increase in net income for the first six months of 2021 compared to net funding (cash used) of loans held for sale of approximately \$1.6 million for the first six months of 2020.

Net cash provided by investing activities totaled \$185.4 million for the six months ended June 30, 2021 compared to net cash used in investing activities of \$153.7 million for the six months ended June 30, 2020. The loans and securities portfolios are a source of liquidity, providing cash flows from maturities and periodic payments of principal. The primary source of cash from investing activities for the six months ended June 30, 2021 was the cash flow from the decrease in loans. During the six months ended June 30, 2021, loans decreased \$197.7 million compared to an increase in loans of \$139.4 million during the six months ended June 30, 2020.

Net cash used in financing activities was \$28.6 million for the six months ended June 30, 2021 compared to net cash provided by financing activities of \$145.3 million for the six months ended June 30, 2020. The primary use of funds for the 2021 period was the decrease in both deposits and short-term borrowings of \$16.8 million and \$9.8 million, respectively. Management believes that the Company's and the Bank's liquidity resources are adequate to provide for the Company's and the Bank's planned operations over the next 12 months following June 30, 2021.

### **Shareholders' Equity and Dividends**

Shareholders' equity increased by \$8.0 million to \$195.7 million at June 30, 2021 from \$187.7 million at December 31, 2020. The increase in shareholders' equity was due primarily to increases of \$8.1 million in retained earnings and \$640,000 in common stock partially offset by a \$644,000 decrease in accumulated other comprehensive income and a \$128,000 increase in treasury stock.

The Company began declaring and paying cash dividends on its common stock in September 2016 and has declared and paid a cash dividend for each quarter since then. The timing and the amount of the payment of future cash dividends, if any, on the Company's common stock will be at the discretion of the Company's Board of Directors and will be determined after consideration of various factors, including the level of earnings, cash requirements, regulatory capital and financial condition.

The Company's common stock is quoted on the Nasdaq Global Market under the symbol, "FCCY."

On January 21, 2016, the Board of Directors of the Company authorized a common stock repurchase program. Under the common stock repurchase program, the Company may repurchase in the open market or privately negotiated transactions up to 5% of its common stock outstanding on the date of approval of the stock repurchase program, which limitation is adjusted for any subsequent stock dividends. For the six months ended June 30, 2021, the Company withheld 7,994 shares of common stock in connection with the vesting of restricted stock awards to satisfy applicable tax withholding obligations.

See Part II, Item 2 of this Form 10-Q, "Unregistered Sales of Equity Securities and Use of Proceeds," for additional information regarding the Company's purchases of equity securities.

### **Capital Resources**

The Company and the Bank are subject to various regulatory capital requirements administered by federal and state banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary, actions by regulators that, if undertaken, could have a direct material effect on the Company's and the Bank's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company and the Bank must meet specific capital guidelines that involve quantitative measures of the Company's and the Bank's assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. The Company's and the Bank's capital amounts and classifications are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Company and the Bank to maintain minimum amounts and ratios of Common Equity Tier 1, Total and Tier I capital (as defined in the regulations) to risk-weighted assets (as defined) and Tier I capital to average assets (Leverage ratio, as defined). As of June 30, 2021 and December 31, 2020, the Company and the Bank met all capital adequacy requirements to which they were subject.

To be categorized as adequately capitalized, the Company and the Bank must maintain minimum Common Equity Tier 1, Total capital to risk-weighted assets, Tier 1 capital to risk-weighted assets and Tier I leverage capital ratios as set forth in the below table. As of June 30, 2021 and December 31, 2020, the Bank's capital ratios exceeded the regulatory standards for well-capitalized institutions. Certain bank regulatory limitations exist on the availability of the Bank's assets for the payment of dividends by the Bank without prior approval of bank regulatory authorities.

In July 2013, the Federal Reserve Board and the FDIC approved revisions to their capital adequacy guidelines and prompt corrective action rules that implemented and addressed the revised standards of Basel III and addressed relevant provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act. The Federal Reserve Board's final rules and the FDIC's interim final rules (which became final in April 2014 with no substantive changes) apply to all depository institutions, top-tier bank holding companies with total consolidated assets of \$500 million or more (which was subsequently increased to \$1 billion or more in May 2015) and top-tier savings and loan holding companies ("banking organizations"). Among other things, the rules established a Common Equity Tier 1 minimum capital requirement (4.5% of risk-weighted assets) and increased the minimum Tier 1 capital to risk-based assets requirement (from 4% to 6% of risk-weighted assets). Banking organizations are also required to have a total capital ratio of at least 8% and a Tier 1 leverage ratio of at least 4%.

The rules also limited a banking organization's ability to pay dividends, engage in share repurchases or pay discretionary bonuses if the banking organization does not hold a "capital conservation buffer" consisting of 2.5% of Common Equity Tier 1 capital to risk-weighted assets in addition to the amount necessary to meet its minimum risk-based capital requirements. The rules became effective for the Company and the Bank on January 1, 2015. The fully phased in capital conservation buffer is 2.5% of Common Equity Tier 1 capital to risk-weighted assets. At June 30, 2021, the Company and the Bank maintained a capital conservation buffer in excess of 2.5%.

Management believes that the Company's and the Bank's capital resources are adequate to support the Company's and the Bank's current strategic and operating plans. However, if the financial position of the Company and the Bank are materially adversely impacted by the economic disruption caused by the COVID-19 pandemic, the Company and or the Bank may be required to increase its regulatory capital position.

The Company's actual capital amounts and ratios are presented in the following table:

(Dollars in thousands)	Actual		For Capital Adequacy Purposes		To Be Well Capitalized Under Prompt Corrective Action Provision	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
<b>As of June 30, 2021</b>						
Common equity Tier 1 (CET1)	\$ 158,028	11.48 %	\$ 61,959	4.50 %	N/A	N/A
Total capital to risk-weighted assets	192,953	14.01 %	110,150	8.00 %	N/A	N/A
Tier 1 capital to risk-weighted assets	176,028	12.78 %	82,613	6.00 %	N/A	N/A
Tier 1 leverage capital	176,028	9.97 %	70,645	4.00 %	N/A	N/A
<b>As of December 31, 2020:</b>						
Common equity Tier 1 (CET1)	\$ 149,292	9.92 %	\$ 67,701	4.50 %	N/A	N/A
Total capital to risk-weighted assets	182,933	12.16 %	120,357	8.00 %	N/A	N/A
Tier 1 capital to risk-weighted assets	167,292	11.12 %	90,268	6.00 %	N/A	N/A
Tier 1 leverage capital	167,292	9.41 %	71,105	4.00 %	N/A	N/A

The Bank's actual capital amounts and ratios are presented in the following table:

(Dollars in thousands)	Actual		For Capital Adequacy Purposes		To Be Well Capitalized Under Prompt Corrective Action Provision	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
<b>As of June 30, 2021</b>						
Common equity Tier 1 (CET1)	\$ 175,838	12.78 %	\$ 61,934	4.50%	\$ 89,461	6.50%
Total capital to risk-weighted assets	192,763	14.01 %	110,106	8.00%	137,632	10.00%
Tier 1 capital to risk-weighted assets	175,838	12.78 %	82,579	6.00%	110,106	8.00%
Tier 1 leverage capital	175,838	9.96 %	70,622	4.00%	88,278	5.00%
<b>As of December 31, 2020:</b>						
Common equity Tier 1 (CET1)	\$ 167,067	11.11 %	\$ 67,676	4.50%	\$ 97,754	6.50%
Total capital to risk-weighted assets	182,708	12.15 %	120,313	8.00%	150,391	10.00%
Tier 1 capital to risk-weighted assets	167,067	11.11 %	90,235	6.00%	120,313	8.00%
Tier 1 leverage capital	167,067	9.40 %	71,083	4.00%	88,854	5.00%

### Interest Rate Sensitivity Analysis

The largest component of the Company's total income is net interest income, and the majority of the Company's financial instruments are composed of interest rate-sensitive assets and liabilities with various terms and maturities. The primary objective of management is to maximize net interest income while minimizing interest rate risk. Interest rate risk is derived from timing differences and the magnitude of relative changes in the repricing of assets and liabilities, loan prepayments, deposit withdrawals and differences in lending and funding rates. Management actively seeks to monitor and control the mix of interest rate-sensitive assets and interest rate-sensitive liabilities.

Under the interest rate risk policy established by the Company's Board of Directors, the Company established quantitative guidelines with respect to interest rate risk and how interest rate shocks are projected to affect net interest income and the economic value of equity. Summarized below is the projected effect of a parallel shift of an increase of 100, 200 and 300 basis points, respectively, in market interest rates on net interest income and the economic value of equity. Due to the historically low interest rate environment at June 30, 2021 a parallel shift down of 100 basis points was presented.

Based upon the current interest rate environment, as of June 30, 2021, sensitivity to interest rate risk was as follows:

(Dollars in thousands)	Next 12 Months Net Interest Income			Economic Value of Equity <sup>(2)</sup>		
	Dollar Amount	\$ Change	% Change	Dollar Amount	\$ Change	% Change
Interest Rate Change in Basis Points <sup>(1)</sup>						
+300	\$ 63,053	\$ 6,736	11.96 %	\$ 250,540	\$ 8,922	3.69 %
+200	60,335	4,018	7.13 %	247,373	5,755	2.38 %
+100	57,542	1,225	2.18 %	244,270	2,652	1.10 %
—	56,317	0	0	241,618	0	0
-100	56,768	451	0.80 %	227,468	(14,150)	(5.86)%

<sup>(1)</sup> Assumes an instantaneous and parallel shift in interest rates at all maturities.

<sup>(2)</sup> Economic value of equity is the discounted present value of expected cash flows from assets, liabilities and off-balance sheet contracts.

The Company employs many assumptions to calculate the impact of changes in interest rates on assets and liabilities, and actual results may not be similar to projections due to several factors, including the timing and frequency of rate changes, market conditions and the shape of the yield curve. Actual results may also differ due to management's actions, if any, in response to changing rates. In calculating these exposures, the Company utilized an interest rate simulation model that is validated by third-party reviewers periodically.

## **Off-Balance Sheet Arrangements and Contractual Obligations**

As of June 30, 2021, there were no material changes to the Company's off-balance sheet arrangements and contractual obligations disclosed under Part II, Item 7 of the 2020 Form 10-K. Management continues to believe that the Company has adequate capital and liquidity available from various sources to fund projected contractual obligations and commitments.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company's Asset Liability Committee ("ALCO") is responsible for developing, implementing and monitoring asset liability management strategies and advising the Company's Board of Directors on such strategies, as well as the related level of interest rate risk. Interest rate risk simulation models are prepared on a quarterly basis. These models demonstrate balance sheet gaps and predict changes to net interest income and the economic market value of equity under various interest rate scenarios.

ALCO is generally authorized to manage interest rate risk through the management of capital, cash flows and duration of assets and liabilities, including sales and purchases of assets, as well as additions of borrowings and other sources of medium or longer-term funding.

The following strategies are among those used to manage interest rate risk:

- Actively market commercial business loan originations, which tend to have adjustable rate features and which generate customer relationships that can result in higher core deposit accounts;
- Actively market commercial mortgage loan originations, which tend to have shorter maturity terms and higher interest rates than residential mortgage loans and which generate customer relationships that can result in higher core deposit accounts;
- Actively market core deposit relationships, which are generally longer duration liabilities;
- Utilize short term and long-term certificates of deposit and/or borrowings to manage liability duration;
- Closely monitor and actively manage the investment portfolio, including management of duration, prepayment and interest rate risk;
- Maintain adequate levels of capital; and
- Utilize loan sales and/or loan participations.

ALCO uses simulation modeling to analyze the Company's net interest income sensitivity as well as the Company's economic value of portfolio equity under various interest rate scenarios. The model is based on the actual maturity and estimated repricing characteristics of rate sensitive assets and liabilities. The model incorporates certain prepayment and interest rate assumptions, which management believes to be reasonable as of June 30, 2021. The model assumes changes in interest rates without any proactive change in the balance sheet by management. In the model, the forecasted shape of the yield curve remained static as of June 30, 2021.

In an immediate and sustained 100 basis point increase in market interest rates at June 30, 2021, net interest income for the next 12 months would increase approximately 2.18%, when compared to a flat interest rate scenario. In year two, this sensitivity improves to an increase of 7.50%, when compared to a flat interest rate scenario. In an immediate and sustained 100 basis points decrease in market interest rates, net interest income for year one would increase approximately 0.80% and would decrease approximately 3.50% in year two.

Certain shortcomings are inherent in the methodologies used in determining interest rate risk. Simulation modeling requires making certain assumptions that may or may not reflect the manner in which actual yields and costs respond to changes in market interest rates. In this regard, the modeling assumes that the composition of our interest-sensitive assets and liabilities existing at the beginning of a period remains constant over the period being measured and assumes that a particular change in interest rates is reflected uniformly across the yield curve regardless of the duration or repricing of specific assets and liabilities. Accordingly, although the information provides an indication of our interest rate risk exposure at a particular point in time, such measurements are not intended to, and do not, provide a precise forecast of the effect of changes in market interest rates on our net interest income and will differ from actual results.

Model simulation results indicate the Company is asset sensitive, which indicates the Company's net interest income should increase in a rising rate environment and decline in a falling interest rate environment. Management believes the Company's interest rate risk position is balanced and reasonable.

## **Item 4. Controls and Procedures**

### **Evaluation of Disclosure Controls and Procedures**

The Company has established disclosure controls and procedures designed to ensure that information required to be disclosed in the reports that the Company files or submits under the Exchange Act, is (i) recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and (ii) accumulated and communicated to management, including the principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

The Company's principal executive officer and principal financial officer, with the assistance of other members of management, have evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this Form 10-Q. Based upon such evaluation, the Company's principal executive officer and principal financial officer have concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this Form 10-Q.

Because of inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving disclosure controls and procedures objectives. Management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

### **Changes in Internal Control Over Financial Reporting**

The Company's principal executive officer and principal financial officer have concluded that there was no change in the Company's internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Exchange Act) that occurred during the quarter ended June 30, 2021 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

## PART II. OTHER INFORMATION

### Item 1. Legal Proceedings

The Company may, in the ordinary course of business, become a party to litigation involving collection matters, contract claims and other legal proceedings relating to the conduct of its business. Management is not aware of any material pending legal proceedings against the Company which, if determined adversely, would have a material adverse effect on the Company's financial condition or results of operations.

### Item 1A. Risk Factors

As of June 30, 2021, there has been no material change in the risk factors previously disclosed under Part I, Item 1A of the 2020 Form 10-K, as filed with the SEC on March 15, 2021, other than the risks and uncertainties described below related to the pending Merger with Lakeland.

#### Risks Related to the Pending Merger with Lakeland Bancorp, Inc.

*Failure to complete the Merger for any reason could negatively impact the stock price and the future business and financial results of the Company.*

Completion of the Merger is subject to customary closing conditions, including, among others, (i) Lakeland shareholder approval of the issuance of shares of Lakeland common stock pursuant to the Merger Agreement; (ii) the adoption and approval of the Merger Agreement by the Company's shareholders; (iii) the receipt of all required regulatory approvals; (iv) the absence of any law or order prohibiting the closing; and (v) the effectiveness of the registration statement to be filed by Lakeland with respect to the common stock to be issued in the Merger. In addition, each party's obligation to consummate the Merger is subject to certain other conditions, including the accuracy of the representations and warranties of the other party and compliance of the other party with its covenants in all material respects.

If the Merger is not completed for any reason, the business of the Company may be adversely affected and, without realizing any of the benefits of having completed the Merger, the Company could be subject to a number of risks. In this regard, the Company faces risks and uncertainties due both to the pendency of the Merger and the potential failure to consummate the Merger, including:

- the occurrence of any event, change or other circumstances that could give rise to the termination of the Merger Agreement;
- the risk that Lakeland's shareholders may not approve the share issuance;
- the risk that the Company's shareholders may not adopt and approve the Merger Agreement;
- the risk that the necessary regulatory approvals may not be obtained or may be obtained subject to conditions that are not anticipated;
- delays in closing the Merger or other risks that any of the closing conditions to the Merger may not be satisfied in a timely manner or at all;
- the diversion of management's time and resources from ongoing business operations due to issues relating to the Merger;
- material adverse changes in the operations or earnings of the Company or Lakeland; and
- potential litigation in connection with the Merger.

*The termination fee and the restrictions on third party proposals set forth in the Merger Agreement may discourage others from trying to acquire us.*

Until the completion of the Merger, with some exceptions, the Company is prohibited from soliciting, initiating, knowingly encouraging or participating in any discussion of any inquiries or proposals that may lead to an acquisition proposal, such as a merger or other business combination transaction, with any party other than Lakeland. In addition, the Company has agreed to pay to Lakeland a termination fee equal to \$9.0 million in certain circumstances, including if the Company terminates the Merger Agreement to enter into a transaction with another party. These provisions could discourage other parties from trying to acquire us even though those other parties may be willing to offer greater value to the Company's shareholders than Lakeland has offered in the Merger. Similarly, such a competing acquirer may propose a price lower than it may otherwise have been willing to offer because of the potential added expense of the termination fee that may become payable to Lakeland in certain circumstances under the Merger Agreement.

The Merger Agreement also provides certain termination rights to Lakeland. If the Merger Agreement is terminated and the Company seeks another merger or business combination, the market price of Company common stock could decline, which could

make it more difficult to find a party willing to offer equivalent or more attractive consideration than the consideration Lakeland has agreed to provide in the Merger.

*If the Merger is not completed, we will have incurred significant expenses without realizing the expected benefits of the Merger and could be subject to additional risks.*

Prior to completion of the Merger, the Company has incurred and will incur substantial expenses in connection with the negotiation and completion of the transactions contemplated by the Merger Agreement. If the Merger is not consummated, the Company would have to recognize these expenses without receiving the Merger consideration. In addition, if the Merger is not completed, the Company may experience negative reactions from the financial markets and from customers and employees. In such an event, the market price of Company common stock may decline significantly, particularly to the extent that the current market price reflects a market assumption that the Merger will be consummated. These factors and similar risks could have a material adverse effect on the results of operations, business and common stock price of the Company.

*The Company's shareholders cannot be certain of the precise value of the Merger consideration they may receive in the Merger because the price of Lakeland's common stock may fluctuate.*

Pursuant to the Merger Agreement, each issued and outstanding share of the Company's common stock will be converted into the right to receive 1.3577 shares of Lakeland common stock. Pending the closing of the Merger, the market value of Lakeland common stock may fluctuate as a result of a variety of factors, including general market and economic conditions, changes in Lakeland's businesses, operations and prospects, and regulatory considerations. Many of these factors are outside of the control of Lakeland and the Company. Consequently, at the time that the Company's shareholders vote to adopt and approve the Merger Agreement, they will not know the actual market value of the shares of Lakeland common stock they will receive when the Merger is completed. The actual value of the shares of Lakeland common stock received by the Company's shareholders will depend on the market value of Lakeland common stock at the time the Merger is completed, which may be less or more than the value used to determine the exchange ratio provided for in the Merger Agreement.

*The Company is subject to business uncertainties and contractual restrictions while the Merger is pending.*

Uncertainty about the effect of the Merger on employees, customers, suppliers and vendors may have a material adverse effect on the Company's business, financial condition and results of operations. These uncertainties may impair the Company's ability to retain and motivate key personnel pending the consummation of the Merger, as such, personnel may experience uncertainty about their future roles following the consummation of the Merger. If key employees depart because of issues relating to the uncertainty and difficulty of integration or a desire not to remain with Lakeland, the Company's business could be harmed and the integration of the respective businesses could be more difficult, costly and time consuming. These uncertainties could cause customers (including depositors and borrowers), suppliers, vendors and others who deal with the Company to seek to change existing business relationships or fail to extend an existing relationship with the Company. In addition, competitors may target the Company's existing customers by highlighting potential uncertainties and integration difficulties that may result from the Merger.

The pursuit of the Merger and the preparation for the integration may place a burden on our management and internal resources. Any significant diversion of management attention away from ongoing business matters and any difficulties encountered in the transition and integration process could have a material adverse effect on the Company's business, financial condition and results of operations.

Furthermore, in the Merger Agreement, the Company agreed to operate its business in the ordinary course prior to closing, and is restricted from taking certain actions without Lakeland's consent while the Merger is pending. These restrictions may, among other things, limit or prevent the Company from pursuing otherwise attractive business opportunities, selling assets, incurring indebtedness, engaging in significant capital expenditures in excess of certain limits set forth in the Merger Agreement, entering into other transactions or making other changes to the Company's business prior to the consummation of the Merger or termination of the Merger Agreement. These restrictions could have a material adverse effect on our business, financial condition and results of operations.

*The Company's shareholders will not be entitled to dissenters' or appraisal rights in the Merger.*

Dissenters' or appraisal rights are statutory rights that, if applicable under law, enable shareholders to dissent from an extraordinary transaction, such as a Merger, and to demand that the Company pay the fair value for their shares as determined by a court in a judicial proceeding instead of receiving the consideration offered to shareholders in connection with the extraordinary transaction. Under New Jersey law, holders of Company common stock do not have the right to dissent from the Merger Agreement and seek an appraisal in connection with the Merger.

*Litigation may be filed against the Boards of Directors of the Company and/or Lakeland that could prevent or delay the completion of the Merger or result in the payment of damages following completion of the Merger.*

In connection with the Merger, it is possible that shareholders of the Company or Lakeland or others may file putative class action lawsuits against the Boards of Directors of the Company and/or Lakeland, and the cost to defend or settle any such litigation could be significant. Among other remedies, shareholders could seek to enjoin the Merger. The outcome of any such litigation would be uncertain. If a dismissal is not granted or a settlement is not reached, such potential lawsuits could prevent or delay completion of the Merger and result in substantial costs to the Company or Lakeland, including costs associated with indemnification obligations of the Company and Lakeland, if any.

*The Company and its shareholders may be unable to fully realize the expected benefits from the Merger.*

The Company expects to achieve substantial operating and capital synergies and cost savings as a result of the Merger. If the respective businesses are not successfully integrated, or are not integrated in a timely fashion, the Company and its shareholders may face material adverse effects including, but not limited to (i) diversion of the attention of management and key personnel and potential disruption of ongoing businesses, (ii) the loss of employees and customers, (iii) declines in the Company's results of operations and financial condition and (iv) a decline in the market price of Company common stock. Even if the respective businesses are successfully integrated, there can be no assurance that the Merger will result in the realization of the full benefit of the anticipated synergies and cost savings or that these benefits will be realized within the expected time frames.

## **Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

### **Issuer Purchases of Equity Securities**

On January 21, 2016, the Board of Directors of the Company authorized a common stock repurchase program. Under this common stock repurchase program, the Company may repurchase in the open market or privately negotiated transactions up to 396,141 shares of its common stock, representing 5% of the shares of common stock outstanding on January 21, 2016, as adjusted for subsequent common stock dividends. At June 30, 2021, 394,141 shares remained available for repurchase under the common stock repurchase program. In the second quarter of 2021, there were no repurchase of shares of common stock in connection with the vesting of restricted stock awards to satisfy applicable tax withholding obligations.

**CERTIFICATIONS**

I, Robert F. Mangano, certify that:

1. I have reviewed this quarterly report on Form 10-Q of 1<sup>st</sup> Constitution Bancorp;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
